Shri Narendra Modi's Letter to the Nation

Mere Priya Parivarjan, It has been a decade since you blessed Bharatiya Janata Party with the responsibility of serving you. The fact that you blessed me to be your Pradhan Sevak at an extremely important time in the history of our country inspires me to work ever harder. In the last ten years, every moment of our time and every ounce of our energy has been dedicated for the people's welfare.

With your trust and support, the nation has seen a massive transformation over the last ten years. While development attained an unprecedented speed and scale, a significant transformation has also happened in terms of mindset.

Today, our youth are speaking of creating Viksit Bharat by 2047 as a goal that is attainable, as a milestone that will certainly be reached. The nation is confident on its journey of becoming self-reliant (Aatmanirbhar). This is a big change from the atmosphere of desperation and frustration that the nation had experienced in the decade prior to 2014 due to the corruption, policy paralysis and misrule by the government of those times.

We have gone from a nation that was in the 'Fragile Five' to a nation that is one of the top 5 economies of the world. The most important facet of this progress is that the fruits of development reached everyone, especially those who needed it the most. The mantra of Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas has guided our actions.

The nation's growth has been powered by the victory of 25 crore people in the battle against poverty. These are people who had suffered decades of deprivation of even basic necessities. Today, not only are they benefiting from our saturation approach in basic needs like bank accounts, gas connections, toilets, water, electricity, etc, but they are also being empowered with new-age facilities like optic fibre connections, digital solutions, drones, etc.

The nation's growth has come from the drastic socio-economic transformation seen in the lives of women, farmers, fisherfolks, street vendors, small entrepreneurs, SC, ST and OBC communities. They are being directly empowered through the power of technology such as the JAM trinity.

Farmers have been a backbone of our nation's progress. Whether it is historic MSP hikes, massive rise in procurement or making fertilisers available to them inexpensively despite globally high prices, direct income support through PM-KISAN, safety net of Fasal Bima, renewed focus on millets, expanded access to local and global markets, a number of steps

have been taken to empower them. Our Annadatas are also becoming Urjadatas due to the PM KUSUM scheme. Empowered by our Beej Se Bazar Tak approach, our farmers have done wonders for the country.

The nation's growth has been fueled by our focus on Vikas and Virasat.

India has been setting new benchmarks in growth of both ecology and economy.

The nation's growth has been fueled by the achievements of our youth who have not only dared to dream big but also worked to realise dreams in various domains such as space, sports and start-ups. In the last ten years, whether it is education, employment or entrepreneurship, crores of new opportunities have been created for our youth.

It is deeply emotional for each Bharatiya Janata Party karyakarta, including me, to be involved in this momentous journey as enablers of every Indian's aspirations.

During an address from the ramparts of the Red Fort, I had said – Yahi Samay Hai, Sahi Samay Hai. Today, many respected voices across the globe are also saying that this is India's time. In fact, today, India is being seen as an important player in the global efforts to create a better future.

Making the best use of this historic time period needs us to be proactive. The proactive nature of our approach is such that we have already worked on a plan of the decisions to be taken in the first 100 days of the new government.

At such a time, when our nation is ready to take off into a new phase of exponential growth, the Amrit Kaal, we seek your blessings for the roadmap that we are unveiling for the next five years.

In the next five years, we will take our nation into the top 3 economies of the world, launch a final and decisive assault against poverty, open up newer avenues of growth in various sectors, further intensify our battle against corruption, unveil the next generation of reforms, and take a number of pro-people decisions and actions.

Our Sankalp Patra is more than just a collection of promises. This Sankalp Patra outlines the collective aspirations and goals of our nation, by our nation and for our nation. As you have seen in the last ten years, it is Modi's Guarantee that every promise made is fulfilled.

In 2014, we received your support to bring in a monumental transformation. In 2019, we received an even bigger mandate and ensured continued development and took big decisions. In the next five years, with your blessings, it is Modi's Guarantee that we will work 24 by 7 for 2047.

Your aspiration is our mission. Your dreams are our responsibility.

Let us create a nation that future generations will be proud of!

Vande Mataram!

Your Pradhan Sevak,

Narendra Modi

The nation's growth has been fueled by the achievements of our youth who have not only dared to dream big but also worked to realise dreams in various domains such as space, sports and start-ups. In the last ten years, whether it is education, employment or entrepreneurship, crores of new opportunities have been created for our youth.

It is deeply emotional for each Bharatiya Janata Party karyakarta, including me, to be involved in this momentous journey as enablers of every Indian's aspirations.

During an address from the ramparts of the Red Fort, I had said – Yahi Samay Hai, Sahi Samay Hai. Today, many respected voices across the globe are also saying that this is India's time. In fact, today, India is being seen as an important player in the global efforts to create a better future.

Making the best use of this historic time period needs us to be proactive. The proactive nature of our approach is such that we have already worked on a plan of the decisions to be taken in the first 100 days of the new government.

At such a time, when our nation is ready to take off into a new phase of exponential growth, the Amrit Kaal, we seek your blessings for the roadmap that we are unveiling for the next five years.

In the next five years, we will take our nation into the top 3 economies of the world, launch a final and decisive assault against poverty, open up newer avenues of growth in various sectors, further intensify our battle against corruption, unveil the next generation of reforms, and take a number of pro-people decisions and actions.

Our Sankalp Patra is more than just a collection of promises. This Sankalp Patra outlines the collective aspirations and goals of our nation, by our nation and for our nation. As you have seen in the last ten years, it is Modi's Guarantee that every promise made is fulfilled.

In 2014, we received your support to bring in a monumental transformation. In 2019, we received an even bigger mandate and ensured continued development and took big decisions. In the next five years, with your blessings, it is Modi's Guarantee that we will work 24 by 7 for 2047.

Your aspiration is our mission. Your dreams are our responsibility.

Let us create a nation that future generations will be proud of!

Vande Mataram!

Your Pradhan Sevak,

Narendra Modi

My Dear Brothers and Sisters,

The philosophy of "Antyodaya" has been Bharatiya Janata Party's guiding light since its foundation. This has manifested itself in various programmes launched by our Prime Minister Shri Narendra Modiji aimed at Garib Kalyan.

In just ten years, our government has achieved path-breaking milestones. With Sabka Saath and Sabka Prayas, we are committed towards nation-building and promise to ensure Sabka Vikas by strengthening Sabka Vishwas in the BJP government. Modi ki Guarantee 2024 Sankalp Patra is our resolve to continue this progress and progress forward in our journey.

As we enter Amrit Kaal of Bharat, a new Vision is now in front of us, a Vision driven by the Panch Pran enunciated by our Prime Minister. The General Elections of 2024 will be crucial in defining the course of our country. 97 crore voters have made up their minds. Citizens want to go forward. Everyone wants to build the country. People have decided to defeat the corrupt alliances.

In just ten years, all of us have worked to bring Bharat from Fragile 5 to place it among the Top 5 economies. We are secure and safe today because we have a leader who is decisive and bold. We are building world class infrastructure because we have a leader who believes in long term vision. We are building an equitable society because we have a leader who cares. Modi ki Guarantee is for all sectors and all 140 crore citizens.

We have embraced our rich heritage and diverse culture. Bhavya Ram Mandir in Ayodhya has rejuvenated our society. Our cultural and religious sites are being restored across the country. Our young citizens are finding a new interest in our history and heritage.

Today our voice is being respected on all global platforms because we have a leader who puts Bharat First in all international affairs. We are trusted. We are attracting global value chains.

We are becoming co-creators of technology.

Prime Minister Shri Narendra Modi has been fulfilling our aspirations since 2014. And today, ten years later, we once again seek your vote and support to build the Viksit Bharat that we all have dreamed for. We seek your full support to bring a massive majority to BJP and Narendra Modiji.

Vande Mataram!

Shri Jagat Prakash Nadda National President, BJP

President's Note

Sankalp Patra Note

My Dear Brothers and Sisters, As we stand at the cusp of a transformational era in this country, it is a matter of immense pride and gratification for me to present to you the Modi Ki Guarantee 2024 Sankalp Patra. We have realised the importance and significance of this document and the immense responsibility that was placed upon us to define the Vision of Viksit Bharat. It is our hope that this document captures the essence of the aspirations of the 140 crore Bharatiyas.

The Sankalp Patra has been prepared after elaborate and intensive discussions with people across different classes, communities and regions. We have made sure that each and every section of the society was heard and was able to share with us their aspirations. We express our sincere gratitude to each and every Bharatiya who has given us their suggestions to us through our Viksit Bharat campaign. Your suggestions have made this document immensely richer.

This Sankalp Patra is the PM Modi's guarantee that we will work tirelessly to realise your dreams and aspirations. The nation has witnessed immense progress and development in the last 10 years in this government under the visionary leadership of PM Shri Narendra Modi. This Sankalp Patra is being presented before the 140 crore Bharatiya at a time when Bharat is taking great leaps across all the sectors, ensuring welfare of all its citizens. It is this delivery that inspires unwavering confidence in every Modi ki Guarantee among the people of Bharat. When the BJP government came into power in 2014, it faced the daunting task of reviving the stalled development caused by widespread corruption, ineffective governance, and indecision during the tenure of the previous government. Under the previous government, the nation had plunged into despair due to a lack of clear intentions, weak leadership, and a dearth of policies aimed at public welfare. Over the past ten years, we have managed to steer the country away from the troubles inherited from a decade of mismanagement by the previous government, while also accelerating the pace of development.

The second term of the NDA government under the leadership of PM Shri Narendra Modi is proof that the hopes of 140 crore Bharatiya have transformed into a solid trust and confidence.

I would like to appeal to you to join hands with us and support us in the upcoming elections so that our collective dream of Viksit Bharat is realised.

Vande Mataram!

Rajnath Singh, Chairperson of the Manifesto Committee

10 YEARS OF GOOD GOVERNANCE AND VIKAS

80+ crore citizens are receiving free rations since 2020 through PM Garib Kalyan Anna Yojana

50+ crore citizens have joined the banking system through PM Jan Dhan Account

Successfully hosted the historic G20 Summit, achieving 100% consensus on the New Delhi Declaration

Bharat becomes Voice of the Global South

Digital India Stack, including UPI, becomes global

Trading started in INR with 27 partner countries

Leading the development of the India-Middle East-Europe Economic Corridor

Provided COVID assistance, including 30+ crore COVID-19 vaccines and medicines, to 100 countries through Vaccine Maitri

Ensuring freedom of navigation and maritime security in the Indian Ocean

Became the first country in the world to land successfully near the South Pole of the moon through Chandrayaan 3

The UN declared 21st June as the International Day of Yoga at Bharat's initiative

The UN International Year of Millets at Bharat's initiative brought Shree Anna into the global discourse

BHARAT ON THE GLOBAL STAGE

We are committed to supporting every garib parivar in coming out of poverty and leading a dignified life. We have undertaken various measures for Garib Kalyan in the last ten years with good results. We will continue to focus on empowering our garib parivar jan to improve their quality of life, increase income, and live with dignity.

Expanding PM Awas Yojana

We have improved the living conditions of 4+ crore garib parivar under PM Awas Yojana.

We recognise the far-reaching benefits of this programme. We will now further expand the PM Awas Yojana to ensure every garib parivar has access to quality housing.

Har Ghar Nal se Jal

We will ensure clean drinking water, Har Ghar Nal se Jal for all households in villages, towns and cities. We will extensively use technology to reduce the wastage of water.

Slum Redevelopment

We have successfully provided houses to many slum dwellers. We will scale it up by making new policies to construct houses on slum land so low-income families can be rehabilitated into high-quality houses.

Clean Cooking Fuel

Under PM Ujjwala Yojana more than 10 crore beneficiaries have been provided LPG connections. We will continue this and expand the programme.

Zero Electricity Bill

We will provide free electricity to poor households under PM Surya Ghar Muft Bijli Yojana.

Free Ration for the Next 5 Years

We have provided free ration to 80+ crore citizens since 2020. We will continue to provide free ration for the next five years under PM Garib Kalyan Anna Yojana.

Expanding Our Efforts to Protect Garib ki Thali

We have worked on protecting garib ki thali by establishing a price stabilisation fund for vegetables and pulses. We will expand our efforts to protect the garib ki thali by becoming Atmanirbhar in the production of pulses, edible oils and vegetables.

Continue Providing Free and Quality Health Care

We have provided quality free health treatment of up to ₹5 lakh to poor families under Ayushman Bharat. We will continue to provide free health treatment by strengthening Ayushman Bharat and other such initiatives.

MODI KI GUARANTEE FOR

GARIB PARIVAR JAN

Expanding PM Awas Yojana

We have improved the living conditions of 4+ crore garib parivar under PM Awas Yojana.

We recognise the far-reaching benefits of this programme. We will now further expand the PM Awas Yojana to ensure every garib parivar has access to quality housing.

Har Ghar Nal se Jal

We will ensure clean drinking water, Har Ghar Nal se Jal for all households in villages, towns and cities. We will extensively use technology to reduce the wastage of water.

Slum Redevelopment

We have successfully provided houses to many slum dwellers. We will scale it up by making new policies to construct houses on slum land so low-income families can be rehabilitated into high-quality houses.

Clean Cooking Fuel

Under PM Ujjwala Yojana more than 10 crore beneficiaries have been provided LPG connections. We will continue this and expand the programme.

Zero Electricity Bill

We will provide free electricity to poor households under PM Surya Ghar Muft Bijli Yojana.

Free Ration for the Next 5 Years

We have provided free ration to 80+ crore citizens since 2020. We will continue to provide free ration for the next five years under PM Garib Kalyan Anna Yojana.

Expanding Our Efforts to Protect Garib ki Thali

We have worked on protecting garib ki thali by establishing a price stabilisation fund for vegetables and pulses. We will expand our efforts to protect the garib ki thali by becoming Atmanirbhar in the production of pulses, edible oils and vegetables.

Continue Providing Free and Quality Health Care

We have provided quality free health treatment of up to ₹5 lakh to poor families under Ayushman Bharat. We will continue to provide free health treatment by strengthening Ayushman Bharat and other such initiatives.

Creating High Value Jobs

We will expand Bharat's top-tier startup ecosystem to tier-2 and tier-3 cities. Further, we will transform Bharat into a global centre for high quality services including tourism to generate high value and diverse employment opportunities nationwide.

Ensuring Quality Health Care for the Middle Class

We have provided high quality healthcare services to the middle class families by expanding the AIIMS and Ayushman Arogya Mandir network. We have provided subsidised medicines through Jan Aushadhi Kendras and also established 315 new medical colleges across the country. We will continue to expand these services for our middle class families to ensure accessible high quality healthcare services.

Promoting Quality Higher Education

We will elevate the quality of education by expanding top educational institutions and upgrading universities to global standards. We will introduce more IITs, IIMs, AIIMS and other such institutes. We will launch internship programmes to blend academic and practical skills.

Improving Infrastructure for Ease of Living

We will focus on the modern road network, enhance rail and metro connectivity with new-age trains and expanded networks, develop comprehensive EV charging stations, construct new airports and advance our telecom infrastructure with affordable 5G and innovative 6G technology, promoting ease of living for middle class families.

Developing Sustainable Cities

We will develop more green spaces like parks, playgrounds etc., revive water bodies like lakes and ponds and develop other natural spaces to make cities more adaptable, sustainable and people-friendly.

Our middle-class parivar jan are the backbone of our economy. Through their hard work, they are contributing a lot to Bharat's economic growth. We are committed to support the aspirations of middle-class parivar jan, providing them opportunities to fulfil their dreams and creating conditions for a better quality of life.

Empowering the Neo-Middle Class

The last 10 years have seen a large number of families join the ranks of the neo-middle class due to a steady increase in the incomes of all citizens. It is our responsibility to help them grow further while giving them enough support to stabilise their standard of living. This includes support for affordable quality housing and healthcare, access to quality education and ample employment opportunities.

Fulfilling the Dream of Owning a Home

We will strengthen the RERA act which has helped make the real estate sector in Bharat more transparent and citizen friendly than ever before. We will work with the state governments to facilitate home ownership for middle-class parivar jan through comprehensive measures including cost reduction in construction and registration, regulatory reforms like enabling automatic approvals for standard housing designs, among others.

MODI KI GUARANTEE FOR MIDDLE-CLASS PARIVAR JAN

Our vision is to create a Viksit Bharat where Nari Shakti is an equal partner and stakeholder in society's progress. Through a series of legal and policy frameworks, we will ensure the dignity of women and provide them with equal growth opportunities.

Increasing Women's Participation in Sports

Our women sports persons have brought honours to our country. We will encourage greater participation of women in sports by launching women sportsperson-focused programmes and facilities.

Constructing and Maintaining Public Toilets for Women

We have provided dignified lives to women by constructing public and individual toilets under Swachh Bharat Mission. We are further committed to upholding the dignity of women by continuing to construct and maintain public toilets.

Ensuring Women's Health and Well-Being

We will expand the existing health services focussed on the prevention and reduction of Anaemia, Breast Cancer, Cervical Cancer and Osteoporosis, ensuring a healthy life for women. We will launch a focussed initiative to eliminate cervical cancer.

Implementing the Nari Shakti Vandan Adhiniyam

We have enacted the long-awaited Nari Shakti Vandan Adhiniyam. We will systematically implement this to ensure representation for women in the Parliament and State Legislatures.

Expanding Shakti Desks

We have established Shakti Desks (Women Help Desks) in police stations. We will further ensure their expansion for timely investigation and resolution of issues.

Strengthening Emergency Helpline 112

We will strengthen the Emergency Response Support System and enhance the capabilities of Emergency Helpline 112

Three Crore Lakhpati Didis

We have empowered one crore rural women to become Lakhpati Didis. We will now empower three crore rural women to become Lakhpati Didis.

Integrating Women SHGs in the Service Sector

We will empower women Self-Help Groups (SHGs) with the skills and tools in key service sectors like IT, healthcare, education, retail and tourism with an aim to increase their income.

Enhancing Market Access for Women SHG Enterprises

We will integrate women Self-Help Groups (SHGs) with ongoing initiatives such as One District One Product (ODOP), Farmer Producer Organizations (FPOs), Ekta Mall, ONDC, GEM, One Station One Product, enhancing better market access for their products.

Facilitating Participation of Women in the Workforce

We will ensure development of infrastructure such as working women's hostels, creches etc. with the specific focus on locations near industrial and commercial centres to facilitate increased participation of women in the workforce.

MODI KI GUARANTEE FOR NARI SHAKTI

Creating High Value Jobs

We will expand Bharat's top-tier startup ecosystem to tier-2 and tier-3 cities. Further, we will transform Bharat into a global centre for high quality services including tourism to generate high value and diverse employment opportunities nationwide.

Ensuring Quality Health Care for the Middle Class

We have provided high quality healthcare services to the middle class families by expanding the AIIMS and Ayushman Arogya Mandir network. We will empower women Self-Help Groups (SHGs) with the skills and tools in key service sectors like IT, healthcare, education, retail and tourism with an aim to increase their income.

Enhancing Market Access for Women SHG Enterprises

We will integrate women Self-Help Groups (SHGs) with ongoing initiatives such as One District One Product (ODOP), Farmer Producer Organizations (FPOs), Ekta Mall, ONDC, GEM, One Station One Product, enhancing better market access for their products.

Facilitating Participation of Women in the Workforce

We will ensure development of infrastructure such as working women's hostels, creches etc. with the specific focus on locations near industrial and commercial centres to facilitate increased participation of women in the workforce.

MODI KI GUARANTEE FOR NARI SHAKTI

Creating High Value Jobs

We will expand Bharat's top-tier startup ecosystem to tier-2 and tier-3 cities. Further, we will transform Bharat into a global centre for high quality services including tourism to generate high value and diverse employment opportunities nationwide.

Ensuring Quality Health Care for the Middle Class

We have provided high quality healthcare services to the middle class families by expanding the AIIMS and Ayushman Arogya Mandir network. We have provided subsidised medicines through Jan Aushadhi Kendras and also established 315 new medical colleges across the country. We will continue to expand these services for our middle class families to ensure accessible high quality healthcare services.

Promoting Quality Higher Education

We will elevate the quality of education by expanding top educational institutions and upgrading universities to global standards. We will introduce more IITs, IIMs, AIIMS and other such institutes. We will launch internship programmes to blend academic and practical skills.

Improving Infrastructure for Ease of Living

We will focus on the modern road network, enhance rail and metro connectivity with new-age trains and expanded networks, develop comprehensive EV charging stations, construct new airports and advance our telecom infrastructure with affordable 5G and innovative 6G technology, promoting ease of living for middle class families.

Developing Sustainable Cities

We will develop more green spaces like parks, playgrounds etc., revive water bodies like lakes and ponds and develop other natural spaces to make cities more adaptable, sustainable and people-friendly.

Empowering the Neo-Middle Class

The last 10 years have seen a large number of families join the ranks of the neo-middle class due to a steady increase in the incomes of all citizens. It is our responsibility to help them grow further while giving them enough support to stabilise their standard of living. This includes support for affordable quality housing and healthcare, access to quality education and ample employment opportunities.

Fulfilling the Dream of Owning a Home

We will strengthen the RERA act which has helped make the real estate sector in Bharat more transparent and citizen friendly than ever before. We will work with the state governments to facilitate home ownership for middle-class parivar jan through comprehensive measures including cost reduction in construction and registration, regulatory reforms like enabling automatic approvals for standard housing designs, among others.

Increasing Women's Participation in Sports

Our women sports persons have brought honours to our country. We will encourage greater participation of women in sports by launching women sportsperson-focused programmes and facilities.

Constructing and Maintaining Public Toilets for Women

We have provided dignified lives to women by constructing public and individual toilets under Swachh Bharat Mission. We are further committed to upholding the dignity of women by continuing to construct and maintain public toilets.

Ensuring Women's Health and Well-Being

We will expand the existing health services focussed on the prevention and reduction of Anaemia, Breast Cancer, Cervical Cancer and Osteoporosis, ensuring a healthy life for women. We will launch a focussed initiative to eliminate cervical cancer.

Implementing the Nari Shakti Vandan Adhiniyam

We have enacted the long-awaited Nari Shakti Vandan Adhiniyam. We will systematically implement this to ensure representation for women in the Parliament and State Legislatures.

Expanding Shakti Desks

We have established Shakti Desks (Women Help Desks) in police stations. We will further ensure their expansion for timely investigation and resolution of issues.

Strengthening Emergency Helpline 112

We will strengthen the Emergency Response Support System and enhance the capabilities of Emergency Helpline 112

Three Crore Lakhpati Didis

We have empowered one crore rural women to become Lakhpati Didis. We will now empower three crore rural women to become Lakhpati Didis.

Integrating Women SHGs in the Service Sector

We will empower women Self-Help Groups (SHGs) with the skills and tools in key service sectors like IT, healthcare, education, retail and tourism with an aim to increase their income.

Enhancing Market Access for Women SHG Enterprises

We will integrate women Self-Help Groups (SHGs) with ongoing initiatives such as One District One Product (ODOP), Farmer Producer Organizations (FPOs), Ekta Mall, ONDC, GEM, One Station One Product, enhancing better market access for their products.

Facilitating Participation of Women in the Workforce

We will ensure development of infrastructure such as working women's hostels, creches etc. with the specific focus on locations near industrial and commercial centres to facilitate increased participation of women in the workforce.

Young citizens form an essential pillar of our commitment towards building a Viksit Bharat. Our vision is to build a Viksit Bharat where young citizens can fully realise their potential.

We will develop an integrated education framework under the NEP, to ensure young citizens have the opportunity to earn while they learn. We guarantee high-quality education, world-class sports facilities, employment and entrepreneurial opportunities to all young citizens through the NEP and other programmes.

MODI KI GUARANTEE FOR YOUNG CITIZENS

Promoting the Entrepreneurial Spirit

We recognize the entrepreneurial potential of our youth. We will expand credit programmes like Mudra to support all aspiring entrepreneurs in starting and sustaining their ventures. The Mudra loan limit will be doubled up to ₹20 lakh and provided to entrepreneurs who have availed and successfully repaid previous loans under the Tarun category.

Providing New Employment Opportunities in Tourism

Our rich cultural heritage is the centre of global attraction. Our efforts at improving connectivity, building better infrastructure and reaching out to the world has significantly increased tourist footfall. We will expand the range of programmes to further expand the tourism sector and increase employment opportunities.

Transparent Government Recruitment

Implementing Law to Prevent Paper Leaks

We have already enacted a strict law to stop misconduct in recruitment exams across the country. We will strictly implement this law to ensure strict punishment to those playing with the future of our youth.

Conducting Transparent Public Exams

We have set the example for conducting recruitment exams in a transparent manner and recruited lakhs of youth for government jobs. We will continue to fill the government vacancies in a time bound and transparent manner. We will also extend the central government capacity to states that request support in conducting recruitment examinations.

Involving the Youth in Nation Building

We have launched 'Mera Yuva Bharat (MY Bharat)' to involve the youth in nation building. One crore youth have already enrolled in MY Bharat. This will be enhanced to develop leadership skills and spirit of volunteering by providing equitable access for participation in government initiatives.

Expanding the Startup Ecosystem

We have successfully established Bharat among the top 3 Startup Ecosystems through various interventions ranging from Atal Tinkering Labs, Hackathon, Startup India and Start Up India Seed Fund Scheme. We will build upon this success and expand this ecosystem by making Bharat a preferred destination for startups, supported by robust investment, mentorship and a culture that celebrates entrepreneurial risk-taking. We will work with the private sector to expand the incubator network and link them with higher education institutes to promote entrepreneurship among our students.

Expand Funding for Startups

We will expand the existing Startup India Seed Fund Scheme and Startup Credit Guarantee Scheme to ensure adequate funds for our start-ups in their entrepreneurial journeys.

Providing Mentorship to Startups

We have successfully provided mentorship under the Atal Innovation Mission where more than 6,000 mentors are already present. We will continue establishing tie-ups with globally recognised mentors to support the startups in their journeys to success.

Encouraging Startups in Government Procurement

We have taken initiatives in many departments including defence and railways to support procurement from startups. We will prepare a strong framework to further encourage startups in government procurement.

Increasing Employment Opportunities in Manufacturing

With PLI and Make in India programmes, manufacturing has emerged as a major economic sector with good success in electronics, defence, mobile, automobile, etc. We will continue to work towards making Bharat a global manufacturing hub and enhance employment in this crucial sector.

Employment Generation Through Investment in Infrastructure

Unprecedented investment in infrastructure has created a large number of employment opportunities. We will continue this investment for employment growth.

Establishing Global Centres for High-Value Services

We will further strengthen our efforts to make Bharat the global hub for High-Value Services by establishing more Global Capability Centres (GCCs), Global Tech Centres (GTCs) and Global Engineering Centres (GECs).

Increasing Women's Participation in Sports

Our women sports persons have brought honours to our country. We will encourage greater participation of women in sports by launching women sportsperson-focused programmes and facilities.

Constructing and Maintaining Public Toilets for Women

Joint families are an important factor of our robust social and cultural heritage. Our society is undergoing a major change in today's time. To cope with these changes, we have initiated a variety of steps, drawing upon our social traditions, to provide a robust eldercare ecosystem in modern times. We will expand these programmes with focus on dignified elderly living.

Organising Ayush Camps

We will organise regular Ayush camps to provide holistic healthcare solutions rooted in Ayurveda, Yoga and other traditional practices to promote active living and vitality of elders.

Ensuring Senior Citizen-Friendly Public Infrastructure

We will implement age-friendly public infrastructure and transportation systems to facilitate mobility and independence for senior citizens.

Facilitate Convenient Teerth Yatra

We will work with state governments to ensure convenient facilities for senior citizens to undertake sacred pilgrimages across the country.

Ayushman for Senior Citizens

We will expand the Ayushman Bharat Yojana to cover Senior Citizens and provide them access to free and quality healthcare.

Facilitating Knowledge Sharing by Senior Citizens

We will introduce a National Senior Citizens portal to honour the wisdom and experience of our elders by providing them with a platform for sharing their stories, insights and knowledge.

Delivering Government Services at Doorstep

We will ensure seamless access to social security benefits and other essential government services to senior citizens by leveraging the extensive reach and reliability of the postal and digital network.

Digital Empowerment for Senior Citizens

We will provide senior citizens with comprehensive training in using UPI and other online payment methods, while also educating them on how to recognize and avoid digital scams.

MODI KI GUARANTEE FOR SENIOR CITIZENS

Digital Public Infrastructure in Agriculture

We will develop Digital Public Infrastructure to remove information asymmetry in agriculture and provide farmer-centric solutions and services.

Doubling Custom Hiring Centres

We have already established 25,000 custom hiring centres. We will double the number of custom hiring centres, focusing on making agricultural machinery and equipment at stable prices.

Upgrading Krishi Vigyan Kendra

We have upgraded KVKs to provide digital solutions to our farmers. We will further upgrade all Krishi Vigyan Kendra into a one-stop centre for skill development.

Expanding PM Kisan Samriddhi Kendras

We have established PM Kisan Samriddhi Kendras to provide all agricultural inputs and services as one-stop shops to our farmers. We will further expand the network of PM Kisan Samriddhi Kendras.

Ensuring High-Yielding Seeds

We will encourage farmers to use high-yielding, climate resilient and bio-fortified varieties of seeds.

Expanding access to Nano Urea

We have started using nano-urea to ensure continued soil fertility in Indian farmlands. We will further expand access to and encourage adoption of Nano Urea.

The dignity and empowerment of farmers is one of our top-most priorities. We have empowered our Kisans through a variety of measures including soil health card, micro-irrigation, crop insurance, seed supply, and direct financial assistance under PM Kisan Samman Yojana. We have increased MSP multi-fold. We are committed to support our Kisan families and empower them to lead better lives.

Strengthening PM KISAN

We are providing annual financial assistance of ₹6,000 under PM Kisan Samman Nidhi Yojana. We are committed to sustained financial support for our farmers.

Strengthening PM Fasal Bima Yojana

We will further strengthen the PM Fasal Bima Yojana through more technological interventions to ensure speedy and more accurate assessment, faster payouts and quicker grievance resolution.

Increase in MSP

We have ensured unprecedented increase in MSP for major crops, and we will continue to increase MSP from time to time.

MODI KI GUARANTEE FOR KISAN SAMMAN

Making Agriculture Remunerative

Atmanirbhar in Pulses and Edible Oil

We will support Annadatas to make Bharat Atmanirbhar in the production of pulses (like tur, urad, masoor, moong and chana) and edible oil production (like mustard, soybean, til and groundnut).

New Clusters for Vegetable Production and Storage

We will support Annadatas with requisite farming inputs to increase the production of nutritious vegetables by establishing new clusters for the production of essentials like onion, tomato, potato etc. We will also set up storage and logistics facilities at these clusters.

Positioning Bharat as the Nutri-Hub of the World

Building on the success of the International Year of Millets, we will promote Shree Anna (millets) for food security, nutrition and environmental sustainability and make Bharat a Global Millet Hub.

Millet as Super Food

We have ensured that Millet gets the global recognition and will now promote it as the global superfood. We will also focus on expanding its cultivation among small farmers, promote research and international marketing to underscore its health and sustainability advantages.

Strengthening Natural Farming

We will launch the National Mission on Natural Farming to promote nature-friendly, climate-resilient, remunerative agriculture for food and nutrition secure Bharat.

Further Incentivising Crop Diversification

We have incentivized crop diversification with appropriate price support strategy. Building on this, we are committed to further expand crop diversification to make agriculture sustainable and remunerative.

Krishi Infrastructure Mission

We will launch a Krishi Infrastructure Mission for integrated planning and coordinated implementation of agri-infrastructure projects like storage facilities, irrigation, grading and sorting units, cold storage facilities, and food processing among others.

Expanding Irrigation Facilities

We have created a 25.5 lakh hectare irrigation capacity under the PM Krishi Sinchai Yojana. Further, we will launch technology-enabled irrigation initiatives to implement cutting-edge technology for efficient water management.

Network of Grain Storage Facilities in Rural Areas

We will develop a substantial storage capacity in PACS under the world's largest grain storage scheme in the cooperative sector. We will complement it with basic facilities like grading, sorting, processing and packing.

Launching Krishi Satellite

We will launch an indigenous Bharat Krishi satellite for farm-related activities like crop forecasting, pesticide application, irrigation, soil health, and weather forecasting, among others.

Expand the Network of Dairy Cooperatives

We will expand the network of dairy cooperatives in villages in the next five years with facilities of fodder banks, milk testing laboratories, bulk milk coolers, and milk processing units.

Protecting Indigenous Breeds

We will make efforts to protect indigenous cattle breeds, and make efforts to increase their productivity and preserve their genetic diversity.

Eliminating Major Veterinary Diseases

We will eliminate FMD (Foot and Mouth Disease) and will also control brucellosis through a massive vaccination campaign.

Sahakar se Samriddhi

We will bring the National Cooperative Policy with a view to make the cooperative movement strong, efficient, transparent, technically rich and vibrant at the grassroots level.

Digital Public Infrastructure in Agriculture

We will develop Digital Public Infrastructure to remove information asymmetry in agriculture and provide farmer-centric solutions and services.

Doubling Custom Hiring Centres

We have already established 25,000 custom hiring centres. We will double the number of custom hiring centres, focusing on making agricultural machinery and equipment at stable prices.

Digital Public Infrastructure in Agriculture

We will develop Digital Public Infrastructure to remove information asymmetry in agriculture and provide farmer-centric solutions and services.

Doubling Custom Hiring Centres

We have already established 25,000 custom hiring centres. We will double the number of custom hiring centres, focusing on making agricultural machinery and equipment at stable prices.

Upgrading Krishi Vigyan Kendra

We have upgraded KVKs to provide digital solutions to our farmers. We will further upgrade all Krishi Vigyan Kendra into a one-stop centre for skill development.

Expanding PM Kisan Samriddhi Kendras

We have established PM Kisan Samriddhi Kendras to provide all agricultural inputs and services as one-stop shops to our farmers. We will further expand the network of PM Kisan Samriddhi Kendras.

Ensuring High-Yielding Seeds

We will encourage farmers to use high-yielding, climate resilient and bio-fortified varieties of seeds.

Expanding access to Nano Urea

We have started using nano-urea to ensure continued soil fertility in Indian farmlands. We will further expand access to and encourage adoption of Nano Urea.

Strengthening PM KISAN

We are providing annual financial assistance of ₹6,000 under PM Kisan Samman Nidhi Yojana. We are committed to sustained financial support for our farmers.

Strengthening PM Fasal Bima Yojana

We will further strengthen the PM Fasal Bima Yojana through more technological interventions to ensure speedy and more accurate assessment, faster payouts and quicker grievance resolution.

Increase in MSP

We have ensured unprecedented increase in MSP for major crops, and we will continue to increase MSP from time to time.

Easy Accessibility of Agricultural Inputs

Atmanirbhar in Pulses and Edible Oil

We will support Annadatas to make Bharat Atmanirbhar in the production of pulses (like tur, urad, masoor, moong and chana) and edible oil production (like mustard, soybean, til and groundnut).

New Clusters for Vegetable Production and Storage

We will support Annadatas with requisite farming inputs to increase the production of nutritious vegetables by establishing new clusters for the production of essentials like onion, tomato, potato etc. We will also set up storage and logistics facilities at these clusters.

Positioning Bharat as the Nutri-Hub of the World

Building on the success of the International Year of Millets, we will promote Shree Anna (millets) for food security, nutrition and environmental sustainability and make Bharat a Global Millet Hub.

Millet as Super Food

We have ensured that Millet gets the global recognition and will now promote it as the global superfood. We will also focus on expanding its cultivation among small farmers, promote research and international marketing to underscore its health and sustainability advantages.

Strengthening Natural Farming

We will launch the National Mission on Natural Farming to promote nature-friendly, climate-resilient, remunerative agriculture for food and nutrition secure Bharat.

Further Incentivising Crop Diversification

We have incentivized crop diversification with appropriate price support strategy. Building on this, we are committed to further expand crop diversification to make agriculture sustainable and remunerative.

Krishi Infrastructure Mission

We will launch a Krishi Infrastructure Mission for integrated planning and coordinated implementation of agri-infrastructure projects like storage facilities, irrigation, grading and sorting units, cold storage facilities, and food processing among others.

Expanding Irrigation Facilities

We have created a 25.5 lakh hectare irrigation capacity under the PM Krishi Sinchai Yojana. Further, we will launch technology-enabled irrigation initiatives to implement cutting-edge technology for efficient water management.

Network of Grain Storage Facilities in Rural Areas

We will develop a substantial storage capacity in PACS under the world's largest grain storage scheme in the cooperative sector. We will complement it with basic facilities like grading, sorting, processing and packing.

Launching Krishi Satellite

We will launch an indigenous Bharat Krishi satellite for farm-related activities like crop forecasting, pesticide application, irrigation, soil health, and weather forecasting, among others.

Expand the Network of Dairy Cooperatives

We will expand the network of dairy cooperatives in villages in the next five years with facilities of fodder banks, milk testing laboratories, bulk milk coolers, and milk processing units.

Protecting Indigenous Breeds

We will make efforts to protect indigenous cattle breeds, and make efforts to increase their productivity and preserve their genetic diversity.

Eliminating Major Veterinary Diseases

We will eliminate FMD (Foot and Mouth Disease) and will also control brucellosis through a massive vaccination campaign.

Sahakar se Samriddhi

We will bring the National Cooperative Policy with a view to make the cooperative movement strong, efficient, transparent, technically rich and vibrant at the grassroots level.

Digital Public Infrastructure in Agriculture

We will develop Digital Public Infrastructure to remove information asymmetry in agriculture and provide farmer-centric solutions and services.

Doubling Custom Hiring Centres

We have already established 25,000 custom hiring centres. We will double the number of custom hiring centres, focusing on making agricultural machinery and equipment at stable prices.

Upgrading Krishi Vigyan Kendra

We have upgraded KVKs to provide digital solutions to our farmers. We will further upgrade all Krishi Vigyan Kendra into a one-stop centre for skill development.

Expanding PM Kisan Samriddhi Kendras

We have established PM Kisan Samriddhi Kendras to provide all agricultural inputs and services as one-stop shops to our farmers. We will further expand the network of PM Kisan Samriddhi Kendras.

We will bring the National Cooperative Policy with a view to make the cooperative movement strong, efficient, transparent, technically rich and vibrant at the grassroots level.

Extending PM Matsya Sampada Yojana

We will further extend the PM Matsya Sampada Yojana to increase fish production and increase our annual seafood exports.

Insurance for Fisheries

We will further strengthen and expand the insurance coverage available under PM Matsya Sampada Yojana through more technological interventions to ensure speedy and more accurate assessment, faster payouts and quicker grievance resolution.

Developing Production and Processing Clusters for Fishermen

We will develop production and processing clusters with special attention to women of coastal communities

Seaweed Farming

We will boost seaweed cultivation under the Pradhan Mantri Matsya Sampada Yojana to increase income of fishermen.

Pearl Farming

We will create sustainable livelihood opportunities for fishermen through promotion of pearl farming.

Establishing Nucleus Breeding Centres and Brood Banks

We will increase production and productivity in the fisheries sector through establishment of a network of Nucleus Breeding Centres and Brood Banks.

Using Satellite Imagery for Protecting Fishermen

We will launch a special programme utilising satellite imagery for rendering integrated service for the fishermen community, ensuring both their safety and security.

Using Technology to Aid Fishermen

We will make use of a series of technological interventions for farm biosecurity, management of diseases in aquatic animals, feed and growth monitoring. We will make use of drone technology for management of the fisheries and aquaculture industries.

Extending PM Matsya Sampada Yojana

We will further extend the PM Matsya Sampada Yojana to increase fish production and increase our annual seafood exports.

Insurance for Fisheries

We will further strengthen and expand the insurance coverage available under PM Matsya Sampada Yojana through more technological interventions to ensure speedy and more accurate assessment, faster payouts and quick grievance resolution.

Developing Production and Processing Clusters for Fishermen

We will develop production and processing clusters with special attention to women of coastal communities

MODI KI GUARANTEE FOR FISHERMEN FAMILIES

Seaweed Farming

We will boost seaweed cultivation under the Pradhan Mantri Matsya Sampada Yojana to increase income of fishermen.

Pearl Farming

We will create sustainable livelihood opportunities for fishermen through promotion of pearl farming.

Establishing Nucleus Breeding Centres and Brood Banks

We will increase production and productivity in the fisheries sector through establishment of a network of Nucleus Breeding Centres and Brood Banks.

Our Shramik bandhus are major contributors to the progress of Bharat. We will empower our Shramik Bandhus with the aim to provide the best opportunities and facilitate ease of working for all workers including gig workers, truck drivers, porters, domestic workers, and street vendors, among others.

Onboarding Gig workers on e-Shram

We will work with platforms for registration of Gig workers on eShram and reach out to such shramik bandhus to help them avail the benefits of various programmes that they are eligible for.

Reaching out to Migrant workers registered on e-Shram

We will reach out to migrant workers and empower them to avail benefits of various programmes that they are eligible for.

Special Train Services for Migrant Workers

We are running special train services on important occasions for helping the migrant workers travel to and from their homes. We will enhance these services so that migrant workers can travel without any hassles.

Expanding PM Svanidhi for Street Vendors

We have empowered street vendors by providing credit facilities to 63+ lakh street vendors under PM Svanidhi. We will continue to further expand PM Svanidhi to cover street vendors, travelling salesmen among others from small towns and villages across Bharat.

Establishing Facilities for Drivers along National Highways

We will introduce a new scheme for truck drivers under which modern facilities will be developed along the national highways.

Including Auto, Taxi, Truck and Other Drivers in All Social Security Schemes

We will onboard auto, taxi, truck and other drivers on e-Shram portal and ensure 100% coverage of all drivers under insurance and other welfare programmes.

Periodic Review of National Floor Wages

We will ensure a review of National Floor Wages from time to time.

Social Security through Post Offices and Digital India

We have successfully implemented social security insurance schemes like PM Jeevan Bima and Suraksha Bima for unorganised workers. We will now integrate all such schemes and use the post office and Digital India network to provide comprehensive social security cover for accident and life insurance. We will use digital technologies for easy enrollment and seamless payment.

Coverage of workers in e-Shram

We have registered unorganised workers on the e-Shram platform. We will reach out to the eShram registered shramik bandhu and help them avail the benefits of various government programmes that they are eligible for.

MODI KI GUARANTEE FOR

SHRAMIK SAMMAN

Onboarding Gig workers on e-Shram

We will work with platforms for registration of Gig workers on eShram and reach out to such shramik bandhus to help them avail the benefits of various programmes that they are eligible for.

Empowering Small Traders and MSMEs with ONDC

We will encourage small traders and MSMEs to adopt ONDC and expand their businesses using the power of technology.

Protecting against Cyber threats

We will create a suite of public cybersecurity products to help small traders and MSMEs protect themselves against the cyber threats and frauds.

Launching Affordable Insurance Products

We will launch affordable insurance products for small traders and MSMEs to protect them from accidents like fire, theft, natural disasters etc.

GST Portal

We will further simplify the GST portal to increase accessibility to users, especially MSMEs and small traders.

Transforming Traditional Handicraft

We will modernise traditional crafts by facilitating design interventions by collaborating with design skill institutes and setting up a Handicraft Design Bank to upskill traditional artisans, opening doors to global market opportunities and transforming their craft into sustainable livelihood.

Expanding Dak Ghar Niryat Kendras

We will expand the network of Dak Ghar Niryat Kendras to provide easy export facility to MSMEs, Small Traders, and Vishwakarma Families.

Khadi As a Global Brand

We will rejuvenate and reposition Khadi as a national and global brand for sustainable lifestyle and undertake structural reforms to achieve these objectives.

Toy Export Hub

We will transform Bharat into the global hub for toy manufacturing, leveraging our skilled workforce and rich cultural heritage to produce innovative and high-quality toys.

Providing Easy Working Capital

We will use the Digital India infrastructure developed over the last 10 years to create a robust and easy Digital Credit solution to support the growth of small traders and MSMEs.

Strengthening PM Vishwakarma Yojana

For the first time since independence, we have initiated a specially designed programme for the upliftment of Vishwakarma families. Under this programme, we are providing financial assistance, credit facilities, training and skill development, and providing market access to Vishwakarma families. We will further strengthen Bharat's Vishwakarmas through a series of such initiatives.

Simplifying Compliances and Laws

We will reduce compliances for small traders and MSMEs to enhance their ease of living and ease of doing business. We will work with State governments and encourage them to simplify State legislations.

Small traders and Vishwakarma families have been a backbone of our economy for centuries.

We are committed to foster a vibrant, resilient, and innovative environment for MSMEs, Small Traders, and Vishwakarma families that acts as a cornerstone of sustainable economic growth, empowering communities, and driving inclusive development across the nation.

Empowering Small Traders and MSMEs with ONDC

We will encourage small traders and MSMEs to adopt ONDC and expand their businesses using the power of technology.

Protecting against Cyber threats

We will create a suite of public cybersecurity products to help small traders and MSMEs protect themselves against the cyber threats and frauds.

Launching Affordable Insurance Products

We will launch affordable insurance products for small traders and MSMEs to protect them from accidents like fire, theft, natural disasters etc.

GST Portal

Simplifying Compliances and Laws

We will reduce compliances for small traders and MSMEs to enhance their ease of living and ease of doing business. We will work with State governments and encourage them to simplify State legislations.

Our party has focused on the welfare of the most vulnerable families right from the beginning. Vanchito ko Variyata and Antyodaya form the core of our philosophy. Sabka Saath, Sabka Vikas drives the policies. We stand committed to improving the lives of all marginalised sections of the society. Viksit Bharat will be Inclusive Bharat.

Recognising Contributions of Tribal Communities

We instituted the Janjatiya Gaurav Diwas to recognise the huge contribution made by our tribal communities. We will take this forward by declaring the year 2025 (the 150th Birth Anniversary of Bhagwan Birsa Munda) as Janjatiya Gaurav Varsh.

Focussed Approach for Tribal Healthcare

We will work towards elimination of malnutrition amongst tribal children and to provide comprehensive health care and services in mission mode in tribal areas. We will work towards eliminating sickle cell anaemia.

Preserving and Promoting Rich Tribal Heritage and Culture

We are committed to honouring and preserving the culture of tribal communities by

Increasing funds to Tribal Research Institutes to promote, preserve, and disseminate research on the rich tapestry of tribal heritage

MODI KI GUARANTEE FOR SABKA SAATH SABKA VIKAS

Empowerment of Safai Karamcharis

We have started 'Namaste Yojana' for Safai Karamcharis which in addition to other welfare schemes have ensured safety, respect and livelihood for Safai Karamcharis. We will continue to expand these initiatives.

Developing Affordable Indigenous Assistive Devices for Divyangs

We will continue developing affordable, indigenous aids and assistive devices to make Bharat atmanirbhar in such equipment.

Providing Affordable Housing Priority to Divyangs under the PM Awas Yojana

We will continue to prioritize the housing needs of divyangs under the Pradhan Mantri Awas Yojana, guaranteeing affordable and accessible housing solutions that cater to their unique requirements.

Expanding the Network of Garima Grahasthas for Transgenders

We will expand the network of Garima Grahasthas to cater to the needs of transgender individuals. We will issue identity cards to ensure their recognition nationwide. Furthermore, all eligible transgender individuals will be covered under the Ayushman Bharat Yojana.

Leverage Technology for Linguistic Minorities

We will work on creation of a technology-based system such as Bhashini for preservation/facilitating translation of languages of linguistic minorities.

Protect and preserve tribal languages using series of programmes

Continuing our initiative to set up Tribal Freedom Fighter Museums to celebrate the socio-cultural heritage and contribution of tribal freedom fighters to our freedom movement.

Establish a Digital Tribal Arts Academy to promote tribal art forms

Preserve and promote tribal medicinal traditions

Creating a District Level Committee

We will establish a District level committee to ensure that welfare schemes reach the lowest level. We will ensure adequate representation for SC, ST and OBCs in this committee.

PM-Suraj

We will provide accessible credit facilities to eligible individuals to enable them to access livelihood opportunities through the PM Suraj portal.

Unlocking the Potential of Minor Forest Produce

We will encourage innovative and technology-driven startups to initiate commercially viable and sustainable forest-based enterprises and value addition for forest produce. We will associate all eligible tribal self-help groups with Vandhan Vikas Kendra, FPOs, NRLM for scaling up the activities relating to minor forest produces and will be provided skill and entrepreneurial training.

Expediting the Establishment of Eklavya Model Residential Schools

We have emphasised the education of tribal children with a target of setting up 740 Eklavya Model Residential Schools. We will expedite the construction and operationalization of the remaining schools.

Improving Socio-Economic Status of PVTG

We will invest ₹24,000 crore through PM JANMAN to bring the socio-economic status of the Particularly Vulnerable Tribal Group on par with society.

Representation of OBC, SC and ST Communities in Governance

We have 60% current ministers in the Union Council of Ministers from OBC, SC and ST communities. We have provided constitutional status to the National Commission for Backward Classes. The benefits of all Garib Kalyan programmes have reached the OBC, SC and ST families. We are committed to Sabka Saath, Sabka Vikas and adequate participation of all sections in our journey to Viksit Bharat.

Expanding Livelihood Opportunities for OBC, SC & ST families

We will expand livelihood opportunities for all families, including OBC, SC & ST, by measures like doubling the MUDRA loan limit to ₹20 lakh. We will further expand the successful schemes such as PM Svanidhi and PM Vishwakaram Yojana, among others. We will further expand employment opportunities through Eco Tourism and Homestay.

Expanding Scholarship Schemes for Students of OBC, SC & ST Communities

We will ensure that no student of the OBC, SC and ST families are deprived of higher education due to affordability by expanding existing scholarships for meritorious students.

Expanding Skilling Opportunities for OBC, SC and ST communities

We will further expand skilling opportunities including recognition and certification of prior skills.

Empowerment of Nomadic Tribes

We have introduced several welfare schemes for nomadic tribes, which have brought a positive change in their lives. We will further expand all these schemes.

Recognising Contributions of Tribal Communities

We instituted the Janjatiya Gaurav Diwas to recognise the huge contribution made by our tribal communities. We will take this forward by declaring the year 2025 (the 150th Birth Anniversary of Bhagwan Birsa Munda) as Janjatiya Gaurav Varsh.

Focussed Approach for Tribal Healthcare

We have emphasised the education of tribal children with a target of setting up 740 Eklavya Model Residential Schools. We will expedite the construction and operationalization of the remaining schools.

Improving Socio-Economic Status of PVTG

We will invest ₹24,000 crore through PM JANMAN to bring the socio-economic status of the Particularly Vulnerable Tribal Group on par with society.

Representation of OBC, SC and ST Communities in Governance

We have 60% current ministers in the Union Council of Ministers from OBC, SC and ST communities. We have provided constitutional status to the National Commission for Backward Classes. The benefits of all Garib Kalyan programmes have reached the OBC, SC and ST families. We are committed to Sabka Saath, Sabka Vikas and adequate participation of all sections in our journey to Viksit Bharat.

Expanding Livelihood Opportunities for OBC, SC & ST families

We will expand livelihood opportunities for all families, including OBC, SC & ST, by measures like doubling the MUDRA loan limit to ₹20 lakh. We will further expand the successful schemes such as PM Svanidhi and PM Vishwakaram Yojana, among others. We will further expand employment opportunities through Eco Tourism and Homestay.

Expanding Scholarship Schemes for Students of OBC, SC & ST Communities

We will ensure that no student of the OBC, SC and ST families are deprived of higher education due to affordability by expanding existing scholarships for meritorious students.

Expanding Skilling Opportunities for OBC, SC and ST communities

We will further expand skilling opportunities including recognition and certification of prior skills.

Empowerment of Nomadic Tribes

We have introduced several welfare schemes for nomadic tribes, which have brought a positive change in their lives. We will further expand all these schemes.

Recognising Contributions of Tribal Communities

We instituted the Janjatiya Gaurav Diwas to recognise the huge contribution made by our tribal communities. We will take this forward by declaring the year 2025 (the 150th Birth Anniversary of Bhagwan Birsa Munda) as Janjatiya Gaurav Varsh.

Focussed Approach for Tribal Healthcare

We will work towards elimination of malnutrition amongst tribal children and to provide comprehensive health care and services in mission mode in tribal areas. We will work towards eliminating sickle cell anaemia.

Preserving and Promoting Rich Tribal Heritage and Culture

We are committed to honouring and preserving the culture of tribal communities by Increasing funds to Tribal Research Institutes to promote, preserve, and disseminate research on the rich tapestry of tribal heritage

Empowerment of Safai Karamcharis

We have started 'Namaste Yojana' for Safai Karamcharis which in addition to other welfare schemes have ensured safety, respect and livelihood for Safai Karamcharis. We will continue to expand these initiatives.

Developing Affordable Indigenous Assistive Devices for Divyangs

We will continue developing affordable, indigenous aids and assistive devices to make Bharat atmanirbhar in such equipment.

Providing Affordable Housing Priority to Divyangs under the PM Awas Yojana

We will continue to prioritize the housing needs of divyangs under the Pradhan Mantri Awas Yojana, guaranteeing affordable and accessible housing solutions that cater to their unique requirements.

Expanding the Network of Garima Grahasthas for Transgenders

We will expand the network of Garima Grahasthas to cater to the needs of transgender individuals. We will issue identity cards to ensure their recognition nationwide. Furthermore, all eligible transgender individuals will be covered under the Ayushman Bharat Yojana.

Leverage Technology for Linguistic Minorities

We will work on creation of a technology-based system such as Bhashini for preservation/facilitating translation of languages of linguistic minorities.

Protect and preserve tribal languages using series of programmes

Continuing our initiative to set up Tribal Freedom Fighter Museums to celebrate the socio-cultural heritage and contribution of tribal freedom fighters to our freedom movement.

Establish a Digital Tribal Arts Academy to promote tribal art forms

Preserve and promote tribal medicinal traditions

Creating a District Level Committee

We will establish a District level committee to ensure that welfare schemes reach the lowest level. We will ensure adequate representation for SC, ST and OBCs in this committee.

PM-Suraj

We will provide accessible credit facilities to eligible individuals to enable them to access livelihood opportunities through the PM Suraj portal.

Unlocking the Potential of Minor Forest Produce

We will encourage innovative and technology-driven startups to initiate commercially viable and sustainable forest-based enterprises and value addition for forest produce. We will associate all eligible tribal self-help groups with Vandhan Vikas Kendra, FPOs, NRLM for scaling up the activities relating to minor forest produces and will be provided skill and entrepreneurial training.

Expediting the Establishment of Eklavya Model Residential Schools

We have emphasised the education of tribal children with a target of setting up 740 Eklavya Model Residential Schools. We will expedite the construction and operationalization of the remaining schools.

Improving Socio-Economic Status of PVTG

We will invest ₹24,000 crore through PM JANMAN to bring the socio-economic status of the Particularly Vulnerable Tribal Group on par with society.

We will further expand skilling opportunities including recognition and certification of prior skills.

Empowerment of Nomadic Tribes

We have introduced several welfare schemes for nomadic tribes, which have brought a positive change in their lives. We will further expand all these schemes.

We have established Bharat as a reliable, trusted and dependable voice globally in the last ten years. We have demonstrated Bharat's independence of thought and action for the benefit of humanity. Our human-centric worldview has helped to be a consensus builder, first responder and a voice of the Global South. Today, the world believes that Bharat is the Mother of Democracy. Our diaspora around the world feels empowered and connected. Our civilizational values, thoughts, wisdom and traditional knowledge have found a place of pride at the world stage. We will strengthen our position and conduct our policies to further our national interests with the spirit of Vishwa Bandhu.

Leading the Global South

We will further consolidate Bharat's position as a Voice of the Global South by using the Prime Minister's visionary 5S approach of Samman, Samvad, Sahyog, Shanti and Samriddhi.

First Responder Bharat

We will further promote Bharat's reputation as a trusted global partner and a first responder, continuing our humanitarian assistance and disaster relief programmes.

Becoming a Permanent Member of the UN Security Council

We are committed to seeking permanent membership in the UN Security Council to elevate Bharat's

MODI KI GUARANTEE FOR VISHWA BANDHU BHARAT

A Bharat First Foreign Policy

Recognising Contributions of Tribal Communities

Empowerment of Nomadic Tribes

We have introduced several welfare schemes for nomadic tribes, which have brought a positive change in their lives. We will further expand all these schemes.

Creating a Global Consensus on Fight Against Terrorism

We will continue our efforts to create a consensus among all members of the United Nations on the Comprehensive Convention against International Terrorism and other such efforts to combat terrorism. We will build upon the success of the 'No Money for Terror' conference to develop better coordination on countering terrorism financing.

Following the Neighbourhood First Policy

We will continue being a trusted and responsible partner in the subcontinent, promoting regional cooperation and ensuring stability and prosperity.

Strengthening Maritime Vision (SAGAR)

We will continue to collaborate with the countries of the Indo-Pacific Region for the security and growth of all in the Region.

Establishment of IMEC to promote Bharat's trade interests

We will facilitate the international movement of trade and services through Bharat by boosting connectivity to Europe via the India-Middle East-Europe Corridor.

Developing Strategic Partnerships for Mineral Security

In our endeavour to secure mineral resources for Bharat, we will work to establish collaborative partnerships across the globe. Through these partnerships, we will integrate ourselves in global supply chains, and develop mining, processing and related technologies while prioritising sustainable development practices.

Expanding Bharat's Diplomatic Network

We will further expand the network of our missions and diplomats to pursue the global interests that have been secured by Bharat's unprecedented rise in the global order.

Bharatiya Diaspora for Growth and Development

We will fortify our connection with the Bharatiya diaspora, actively involving them in Bharat's progress and providing unwavering support during their times of need, thereby enriching our mutual cultural and economic ties.

Establishing Thiruvalluvar Cultural Centres Globally

We will establish Thiruvalluvar Cultural Centres across the globe to showcase Bharat's rich culture and offer training in yoga, ayurveda, Bharatiya languages, classical music etc. We will promote Bharat's rich democratic traditions going back millennia as the Mother of Democracy.

Pioneering International Alliances

We will continue forming and leading alliances of like-minded partners in areas of mutual interest such as the International Solar Alliance, the Coalition for Disaster Resilient Infrastructure, the One Future Alliance, the Global Biofuels Alliance and the Big Cat Alliance.

Taking our Digital Public Infrastructure to the World

The role of Bharat's Digital Public Infrastructure in revolutionising public service delivery is appreciated all over the world. We will work towards sharing this technology with partner countries.

Taking Yoga and Ayurveda to the World

We will facilitate Yoga and Ayurveda Institutes in all the major countries for providing certified courses. We will also establish a globally recognised certification mechanism for Yoga and Ayurveda.

Bringing Back Bharatiya Artefacts

We will relentlessly work towards bringing back Bharatiya idols and artefacts that were taken away illegally from Bharat.

Encourage Classical Language Research

We will encourage the study of classical Indian languages in major educational institutions across the world

Revitalising Bharatiya Civilizational Monuments

We will collaborate with countries across the globe to restore and revitalise sites of Bharatiya civilization.

Preserving and Promoting the Legacy of Lord Ram

Ramayan is celebrated across the world, particularly in South and South-East Asia. We will launch a global outreach program for documenting and promoting the tangible and intangible legacy of Lord Ram in all countries. We will celebrate Ramayan Utsav with great fervour across the globe to commemorate the Pran Pratishtha of Ram Lalla

Elevating Bharat as a Global Soft Power

Celebrating Bharat's Rich Cultural Heritage

Elevating Bharat as a Global Soft Power

Celebrating Bharat's Rich Cultural Heritage

Reinforcing Our Fight Against Drugs

We will aim towards eliminating the threat of drugs on our society, especially our young citizens, through a series of technical, legal and intelligence programmes. We will work on enforcement and reducing demand for drugs. We will leverage Big Data analytics, artificial

intelligence, drones and satellite imagery to detect and dismantle drug trafficking networks effectively.

Implementing Bharatiya Nyay Sahita Expeditiously

We have enacted Bharatiya Nyay Sanhita to ensure security as well as justice delivery for our citizens. We are committed to its effective implementation through training, online certificate courses, new curriculum in universities and law schools, and many additional measures.

Eliminating Left Wing Extremism (LWE)

We will strengthen our paramilitary forces with state-of-the-art equipment and trained personnel to eliminate LWE in all its forms. Our development measures have weakened the false propaganda spread by extremists. We will ensure that the development and welfare schemes reach the people living in areas affected by Left Wing Extremism. With this 360 degree approach, we will eliminate LWE in our journey towards Viksit Bharat.

Implementation of CAA

We have taken the historic step of enacting the Citizenship Amendment Act (CAA) and will implement it to confer citizenship to all eligible persons.

Enhancing the Capabilities of the Armed Forces and the Central Armed Police Forces

We will further equip the Armed Forces and the Central Armed Police Forces with modern state-of-the-art weapons, equipment and technology to aid the swift disposal of any current and emerging threats.

National Forensics Mission

To move away from 'punishment to justice, and improve the current conviction rate in the country, we will launch a National Forensics Mission to strengthen the forensic infrastructure.

Protecting Bharat's Security Interests in the Indian Ocean Region

We will expand Bharat's defence footprint across strategic locations and partner with friendly countries to protect Bharat's and the Indian Ocean Region's security interests.

Safeguarding Bharat's Digital Sovereignty

We will take further steps towards strengthening Bharat's digital sovereignty and will take stringent action against digital entities that threaten the safety of Bharatiya on the internet.

Implementing Robust Cyber Security Policies

To regulate and monitor Bharat's cyber protection agencies and infrastructure, we will develop and implement robust cyber security policies.

In the last ten years, we have taken a firm stand on protecting our country and citizens from the threats of terrorism and naxalism. We have followed a zero tolerance policy on terrorism. We remain committed to keep our country and citizens safe.

Continuing a Zero-Tolerance Policy Towards Terrorism

The Surgical Strikes of 2016 and the Air Strikes of 2019 are examples of our dedicated efforts towards countering terrorism. We are committed to defend Bharat's citizens and interests at home and abroad from all threats of terrorism.

Theatrization of Military Commands

We have established the position of Chief of Defense staff (CDS) for better coordination in the military. We will further establish the military theatre commands for more efficient operations.

Ensuring Robust Infrastructure Along Borders

The gross neglect by previous governments resulted in poor infrastructure in border areas. We have corrected this grave error and started constructing roads, railway, telecom towers, optical fibre cables and electricity networks. We will accelerate development of robust infrastructure along the Indo-China, Indo-Pakistan and Indo-Myanmar borders. We will introduce technological solutions on fenced portions to make fencing smarter.

MODI KI GUARANTEE FOR SURAKSHIT BHARAT

infrastructure along the Indo-China, Indo-Pakistan and Indo-Myanmar borders. We will introduce technological solutions on fenced portions to make fencing smarter. prospects. We are committed to increase employment, self-employment, and the enhancement of livelihood opportunities for our citizens.

Developing Bharat as a Trusted Global Value Chain Partner

Our policies such as Make in India and PLI have significantly increased manufacturing activities. We recognise that manufacturing presents huge potential for employment creation. We will make Bharat a trusted Global Manufacturing Hub through a series of programmes including simplification of regulatory processes, investment in infrastructure to meet the requirements of manufacturing hubs, bringing capital to the industry and investing in research and development.

Increasing the Exports

We will promote Bharat's exports through international cooperation, infrastructure development and simplification of laws

Revamp Commercial and Tax Legislations

We have substantially simplified the indirect and direct tax systems through simpler rules, new legislation, and use of technology. We are committed to launch an exercise to completely revamp our economic and commercial legislations to suit our economic needs.

Honour Honest Taxpayers

We will honour honest taxpayers who have played an important role in strengthening our economy.

Make Bharat the Third-Largest Economy

Within a decade, we have brought Bharat from 11th to 5th largest economic power. This was possible due to right policies, focussed execution and meticulous planning. We guarantee that Bharat will be the 3rd largest economic power.

Sustaining Financial Macro Stability

We have demonstrated low inflation, high growth and fiscal prudence in the past decade. We will continue on this path and stay committed to expand our economic prowess.

Expanding Employment Opportunities

Despite global challenges and unprecedented events such as the Covid pandemic, our economic policies have been successful in creating a substantial number of employment opportunities. Our strategic focus on sectors like manufacturing, services, rural industry, infrastructure, tourism, and skill development, coupled with support through credit facilities via Svanidhi and Mudra, has greatly expanded livelihood

We have successfully brought Bharat from fragile 5 to top 5 economies despite the global turmoil and once-in-a-century event Covid pandemic. We have strengthened our financial system, maintained fiscal prudence, and increased our foreign exchange reserves. We have successfully shielded our citizens from global price shocks and created a conducive environment for economic growth. Our policies have resulted in Bharat becoming the 5th largest economy. We will build upon this foundation in the next five years to launch our country on the path to Viksit Bharat by 2047.

prospects. We are committed to increase employment, self-employment, and the enhancement of livelihood opportunities for our citizens.

Developing Bharat as a Trusted Global Value Chain Partner

Our policies such as Make in India and PLI have significantly increased manufacturing activities. We recognise that manufacturing presents huge potential for employment creation. We will make Bharat a trusted Global Manufacturing Hub through a series of programmes including simplification of regulatory processes, investment in infrastructure to meet the requirements of manufacturing hubs, bringing capital to the industry and investing in research and development.

Increasing the Exports

We will promote Bharat's exports through international cooperation, infrastructure development and simplification of laws

Revamp Commercial and Tax Legislations

We have substantially simplified the indirect and direct tax systems through simpler rules, new legislation, and use of technology. We are committed to launch an exercise to completely revamp our economic and commercial legislations to suit our economic needs.

Our strategic focus on sectors like manufacturing, services, rural industry, infrastructure, tourism, and skill development, coupled with support through credit facilities via Svanidhi and Mudra, has greatly expanded livelihood

In the last ten years we have made significant progress in the manufacturing sector. We launched a series of programmes like Make in India, PLI, and simplification of compliances to expand manufacturing. We will further harness the potential of manufacturing in creating employment opportunities and expanding economic activity. We believe that our talent in research and design can be best complimented by expanding the manufacturing sector. We also understand the need for self-reliance and resilience in global value chains. Therefore, we will make all efforts to develop Bharat as a Global Manufacturing Hub.

Balanced and Inclusive Development

We will launch an initiative to foster balanced regional development across all districts of the country. Brand, promotion and exports of One District One Product (ODOP) products will be encouraged under the initiative.

Building a Globally Competitive Food Processing Industry

We will establish smart food processing hubs equipped with cutting-edge technologies to enable comprehensive monitoring of the entire food supply chain, from farm to table, ensuring quality, traceability and operational efficiency.

We will position Bharat as a major player in value chains of processed fruits, vegetables, fish, seafood and dairy, among others.

Focusing on Core Industries

We will focus on the technology and sustainability transition happening in steel, cement, metals, and engineering goods industries. We will support these industries to adopt greener manufacturing processes.

Promoting Defence Manufacturing

We will vastly expand domestic defence manufacturing and exports of Made in Bharat defence equipment. This effort will be facilitated by accelerating indigenisation in major Air and Land Equipment Platforms.

Positioning Bharat as a Global Railway Manufacturing Hub

We will promote manufacturing, research, and development in the railway sector to make Bharat a leading global railway manufacturing hub.

Making Bharat as Global Aviation Manufacturing and MRO Hub

We will bring a commercial aircraft manufacturing ecosystem to Bharat. For this we will design a Policy for Aerospace Manufacturing in the country and try to develop our own passenger aircraft.

We will strengthen the civil aviation ecosystem by encouraging Maintenance, Repairs and Overhaul (MRO) activities as well as Aircraft Financing and Leasing Activities institutions through comprehensive government support programs under the Make in India initiative.

Promoting Ship Building

We will ensure availability of dedicated research, designing and testing facilities across the country to promote shipbuilding under the Make in India initiative.

Strengthening Bharat's Position as Pharmacy of the World

We will strengthen Bharat's position as the 'Pharmacy of the World' by boosting the manufacturing and research capacities of the pharmaceutical sector, especially APIs.

We will expand Research Linked Incentive schemes, encouraging companies to invest in research for new drugs, chemical entities and new biological entities.

Making Bharat a Global Electronics Manufacturing Hub by 2030

In the last ten years we have established a USD 100+ billion electronics manufacturing industry. We have already become the second largest mobile phone manufacturer in the world. Our policies have resulted in generating huge employment opportunities in this industry.

Global Manufacturing Hub

Under the Make in India programme, manufacturing has emerged as a major economic sector with good success in electronics, defence, mobile, automobiles and more. We will work towards making Bharat a global manufacturing hub and enhance employment in these crucial sectors.

Becoming Product Nation

We are a major engineering and design services hub in the world with many complex products being designed in Bharat. We will build on this strength to become a major Product Nation by combining our strength in product design services with manufacturing.

Developing Robust Industrial Infrastructure

Based on the principles of PM-Gatishakti, the government shall develop industrial cities in different industrial corridors for balanced regional development. This shall promote industrialisation of backward regions of the country.

MODI KI GUARANTEE FOR

GLOBAL MANUFACTURING HUB

We will consolidate our efforts and expand electronics manufacturing three times to become a major player in the global value chain. We will leverage our design capabilities to develop indigenous brands.

Making Bharat a Major Player in Semiconductor and Chip Manufacturing

Building on our success of electronics industry, will deepen our component ecosystem and take semiconductor design and manufacturing to a new level to become one of the global majors in chip manufacturing

Making Bharat a Global Leader in Automobile and EV Manufacturing

Bharat is a major automobile manufacturer. We will support the growth of the automobile industry and its transition to EV manufacturing. We will invest in establishing a nationwide EV charger infrastructure to encourage EV adoption.

Developing Rare Earths and Strategic Mineral Industry

We will support exploration for rare earths and strategic minerals. We will develop partnerships with countries having reserves of these minerals to secure our supply chain. We will support the processing industries and manufacture of final products using rare earths and strategic minerals.

Making Bharat a Global Leader in Textile Manufacturing

Bharat has been a leader in textiles, garments, and apparels. We recognise the huge employment generating potential of these industries. Therefore, we will accelerate the efforts made over the last ten years and take textile, garment, and apparel industries to the next level. We will successfully operationalize PM Mitra parks, invest in research and development of new products, simplify the legal and compliance regimes, invest in common amenities, invest in infrastructure for textile industry, and launch special skilling programmes focussed on employment.

We will also make investments in our traditional textile industries to take our indigenous industries and designs to the global stage.

Lab Grown Diamonds

We will make India the largest producer for lab-grown diamond production, embracing cutting-edge technology and sustainable methods to drive economic growth and establish a leading position in the international market.

Setting Up Bio-Manufacturing Hubs

For fostering high-performance biomanufacturing towards promoting a circular economy for green, clean and prosperous Bharat by setting up of Bio-Manufacturing Hubs.

Balanced and Inclusive Development

We will launch an initiative to foster balanced regional development across all districts of the country. Brand, promotion and exports of One District One Product (ODOP) products will be encouraged under the initiative.

Building a Globally Competitive Food Processing Industry

We will establish smart food processing hubs equipped with cutting-edge technologies to enable comprehensive monitoring of the entire food supply chain, from farm to table, ensuring quality, traceability and operational efficiency.

Strengthening Bharat's Position as Pharmacy of the World

We will strengthen Bharat's position as the 'Pharmacy of the World' by boosting the manufacturing and research capacities of the pharmaceutical sector, especially APIs.

We will expand Research Linked Incentive schemes, encouraging companies to invest in research for new drugs, chemical entities and new biological entities.

Making Bharat a Global Electronics Manufacturing Hub by 2030

In the last ten years we have established a USD 100+ billion electronics manufacturing industry. We have already become the second largest mobile phone manufacturer in the world. Our policies have resulted in generating huge employment opportunities in this industry.

Global Manufacturing Hub

Under the Make in India programme, manufacturing has emerged as a major economic sector with good success in electronics, defence, mobile, automobiles and more. We will work

towards making Bharat a global manufacturing hub and enhance employment in these crucial sectors.

Becoming Product Nation

We are a major engineering and design services hub in the world with many complex products being designed in Bharat. We will build on this strength to become a major Product Nation by combining our strength in product design services with manufacturing.

Developing Robust Industrial Infrastructure

Based on the principles of PM-Gatishakti, the government shall develop industrial cities in different industrial corridors for balanced regional development. This shall promote industrialisation of backward regions of the country.

We will consolidate our efforts and expand electronics manufacturing three times to become a major player in the global value chain. We will leverage our design capabilities to develop indigenous brands.

Making Bharat a Major Player in Semiconductor and Chip Manufacturing

Building on our success of electronics industry, will deepen our component ecosystem and take semiconductor design and manufacturing to a new level to become one of the global majors in chip manufacturing

Making Bharat a Global Leader in Automobile and EV Manufacturing

Bharat is a major automobile manufacturer. We will support the growth of the automobile industry and its transition to EV manufacturing. We will invest in establishing a nationwide EV charger infrastructure to encourage EV adoption.

Developing Rare Earths and Strategic Mineral Industry

We will support exploration for rare earths and strategic minerals. We will develop partnerships with countries having reserves of these minerals to secure our supply chain. We will support the processing industries and manufacture of final products using rare earths and strategic minerals.

Making Bharat a Global Leader in Textile Manufacturing

Bharat has been a leader in textiles, garments, and apparels. We recognise the huge employment generating potential of these industries. Therefore, we will accelerate the efforts made over the last ten years and take textile, garment, and apparel industries to the next level. We will successfully operationalize PM Mitra parks, invest in research and development of new products, simplify the legal and compliance regimes, invest in common amenities, invest in infrastructure for textile industry, and launch special skilling programmes focussed on employment.

We will also make investments in our traditional textile industries to take our indigenous industries and designs to the global stage.

Lab Grown Diamonds

We will make India the largest producer for lab-grown diamond production, embracing cutting-edge technology and sustainable methods to drive economic growth and establish a leading position in the international market.

Setting Up Bio-Manufacturing Hubs

For fostering high-performance biomanufacturing towards promoting a circular economy for green, clean and prosperous Bharat by setting up of Bio-Manufacturing Hubs.

Building World Class Station

We have already started redevelopment of 1,300+ railway stations to world class standards.

We will expand this project to all other major and medium sized stations.

Expanding Coverage of New Age Trains

We have developed and manufactured world class Vande Bharat, Amrit Bharat and Namo Bharat trains. We will further expand this network of new age trains.

Vande Sleeper Trains

We will launch Vande Sleeper trains for a comfortable overnight journey.

High Frequency Trains for Regional Connectivity

We have commissioned sections of RRTS between Delhi and Meerut. We will further expand these services and launch other regional connectivity programmes to other major cities to ensure robust connectivity and integrate the regional economies.

Expanding Metro Network

We have initiated metro in 20+ cities over the past decade, we will expand the metro network in major urban centres ensuring last mile connectivity.

Expanding Bullet Trains

We are constructing the first Bullet Train corridor in the country. Using the experience gained so far, we will initiate feasibility studies for Bullet Train Corridors in North, South and East India.

Launch User Friendly Super App

We will launch a Super App to provide all trains related services to users in a single app. We have transformed infrastructure in the past ten years in terms of quality, quantity and reach. Every region of the country is experiencing the benefits of our efforts. We will continue these efforts so that our citizens can realise their full potential in life and livelihood.

Constructing New Tracks

We will expand the railway network to increase capacity for passenger as well as cargo transportation. We have constructed 31,000 km railway tracks in the last ten years. We are now adding 5000+ km of new tracks every year and will continue to add new tracks at this pace for the next few years.

Increasing Ticket Availability

We will significantly increase passenger carrying capacity by 2030 to significantly reduce the waiting list.

Expansion of Kavach Train Protection System

We have indigenously developed Automatic Train Protection System Kavach and are rapidly expanding its coverage. In the next few years, we will expand the manufacturing, design and installation of Kavach Systems in a mission mode just as we electrified the railway network.

MODI KI GUARANTEE FOR WORLD-CLASS INFRASTRUCTURE

Providing Best in Class Experience in Railways

Expanding PM Gram Sadak Yojana

We will extend the PM Gram Sadak Yojana to the remotest areas where there are settlements to ensure improved connectivity and access to healthcare, education, government services and markets.

Further Enhancing Road Safety

We will focus on further improving safety on roads through a series of techno legal interventions, training and behavioural change to improve road safety.

Expanding Expressways and ring roads

We will strengthen the modern road connectivity ecosystem to 15,000 km of access-controlled highways. We will construct ring roads around major cities to improve mobility and decongest cities.

Promoting EVs

We have successfully facilitated the induction of over 30 lakh EVs, currently operational on our roads. We will increase the fleets of EVs and will also establish EV charging stations.

Balanced and Inclusive Development

We will launch an initiative to foster balanced regional development across all districts of the country. Brand, promotion and exports of One District One Product (ODOP) products will be encouraged under the initiative.

Building a Globally Competitive Food Processing Industry

We will establish smart food processing hubs equipped with cutting-edge technologies to enable comprehensive monitoring of the entire food supply chain, from farm to table, ensuring quality, traceability and operational efficiency.

We will position Bharat as a major player in value chains of processed fruits, vegetables, fish, seafood and dairy, among others.

Focusing on Core Industries

We will focus on the technology and sustainability transition happening in steel, cement, metals, and engineering goods industries. We will support these industries to adopt greener manufacturing processes.

Promoting Defence Manufacturing

We will vastly expand domestic defence manufacturing and exports of Made in Bharat defence equipment. This effort will be facilitated by accelerating indigenisation in major Air and Land Equipment Platforms.

Positioning Bharat as a Global Railway Manufacturing Hub

We will promote manufacturing, research, and development in the railway sector to make Bharat a leading global railway manufacturing hub.

Making Bharat as Global Aviation Manufacturing and MRO Hub

We will bring a commercial aircraft manufacturing ecosystem to Bharat. For this we will design a Policy for Aerospace Manufacturing in the country and try to develop our own passenger aircraft.

We will strengthen the civil aviation ecosystem by encouraging Maintenance, Repairs and Overhaul (MRO) activities as well as Aircraft Financing and Leasing Activities institutions through comprehensive government support programs under the Make in India initiative.

Promoting Ship Building

We will ensure availability of dedicated research, designing and testing facilities across the country to promote shipbuilding under the Make in India initiative.

Strengthening Bharat's Position as Pharmacy of the World

We will strengthen Bharat's position as the 'Pharmacy of the World' by boosting the manufacturing and research capacities of the pharmaceutical sector, especially APIs.

We will expand Research Linked Incentive schemes, encouraging companies to invest in research for new drugs, chemical entities and new biological entities.

Making Bharat a Global Electronics Manufacturing Hub by 2030

In the last ten years we have established a USD 100+ billion electronics manufacturing industry. We have already become the second largest mobile phone manufacturer in the world. Our policies have resulted in generating huge employment opportunities in this industry.

Global Manufacturing Hub

Promoting EVs

We have successfully facilitated the induction of over 30 lakh EVs, currently operational on our roads. We will increase the fleets of EVs and will also establish EV charging stations.

Developing Airports for Seamless Connectivity

We will enhance air connectivity multifold by development and operationalization of new airports, helipads and aerodromes.

Ensuring the Modernisation of Airports

We will transform airports into multi-modal hubs with integrated transit facilities such as buses, metro and rapid rail among others by effective use of PM Gatishakti National Master Plan.

Expansion of International Airports

In line with our vision for enhanced connectivity and economic growth, we will expand the number of international airports.

Formulating a Master Plan for Airport Transformation

We will introduce the Amrit Kaal Civil Aviation Master Plan to transform our airports into regional international hubs, providing single-point connectivity to designated regions worldwide, with the vision to position Bharat as the leading aviation ecosystem of South Asia.

Strengthening Waterways and Shipping

Enhancing the Capacity of Inland Waterways

We will integrate inter-ministry initiatives like the National Waterway Project, Namami Gange, the National River Conservation Plan, Jal Marg Vikas Project and Arth Ganga, among others, to double the share of Inland Water Transport in transportation.

Expanding Water Metro

We will expand water metro services across all feasible regions, enhancing water-based public transportation networks and improving connectivity.

Building a Homegrown Shipping Industry

We will revamp the legal framework to enable faster growth of our Shipping industry to become globally competitive.

Digital Infrastructure

Facilitating Digital Revolution by 6G

We will expand the 5G networks and take the lead in the development of 6G technology.

Expanding Bharat Net

We have connected over 2 lakh Gram Panchayats with BharatNet. We will expand BharatNet to every village with broadband, making high-speed internet accessible to all.

Land Records Digitization

We will implement next generation 'Land Record Digitization' and the integration of various institutions like Revenue Courts and Registration Offices.

Strengthening Aviation Sector Energy Security

Ensuring Energy Independence by 2047

We will achieve energy independence for Bharat by 2047 and reduce petroleum imports through a mix of electric mobility, network of charging stations, renewable energy production and improving energy efficiency.

Implementing PM Surya Ghar Muft Bijli Yojana

We will enable homes across Bharat to run devices like Electric Stoves, Fan, AC, TV among others and also enable EV charging through solar energy.

Increasing Ethanol Mix for Dual Benefits

We have achieved record ethanol blending under the Ethanol Blended Petrol Programme. We will further increase ethanol blending in petrol to mitigate environmental degradation while providing additional income to farmers.

Expanding Nuclear Energy

We will expand the nuclear energy component of Bharat's energy mix through a focus on developing small modular reactors as well as increased investment in nuclear energy production.

Accelerating Bharat's Renewable Energy Transition

We will harness Bharat's renewable energy potential, targeting 500 GW of renewable energy through the establishment of mega solar parks, wind parks and the Green Energy Corridor project among others.

Developing Battery Energy Storage System Infrastructure

We will incentivise private sector investment in large-scale Battery Energy Storage Systems (BESS) infrastructure for fostering renewable energy integration, grid stability and resilience, ensuring a sustainable and reliable energy future for all.

Increasing Green Hydrogen Production Capacity

With a clear focus on green hydrogen, we will invest in expanding production, developing technologies and aim to become a major green hydrogen production hub.

Establishing Smart Grid

We will establish nationwide smart grids integrated with advanced technology, including smart meters and control centres, for efficient and intelligent energy management.

Global Manufacturing Hub in Renewable Energy

We will set up a Centre of Excellence for clean energy technologies and position the country as Global Manufacturing Hub for Wind, Solar and Green Hydrogen and scale up Bio-Energy Manufacturing facilities from all sorts of waste.

Developing Airports for Seamless Connectivity

We will enhance air connectivity multifold by development and operationalization of new airports, helipads and aerodromes.

Ensuring the Modernisation of Airports

We will transform airports into multi-modal hubs with integrated transit facilities such as buses, metro and rapid rail among others by effective use of PM Gatishakti National Master Plan.

Expansion of International Airports

In line with our vision for enhanced connectivity and economic growth, we will expand the number of international airports.

Formulating a Master Plan for Airport Transformation

Expanding Nuclear Energy

We will expand the nuclear energy component of Bharat's energy mix through a focus on developing small modular reactors as well as increased investment in nuclear energy production.

Accelerating Bharat's Renewable Energy Transition

We will harness Bharat's renewable energy potential, targeting 500 GW of renewable energy through the establishment of mega solar parks, wind parks and the Green Energy Corridor project among others.

Developing Battery Energy Storage System Infrastructure

We will incentivise private sector investment in large-scale Battery Energy Storage Systems (BESS) infrastructure for fostering renewable energy integration, grid stability and resilience, ensuring a sustainable and reliable energy future for all.

Increasing Green Hydrogen Production Capacity

With a clear focus on green hydrogen, we will invest in expanding production, developing technologies and aim to become a major green hydrogen production hub.

Establishing Smart Grid

We will establish nationwide smart grids integrated with advanced technology, including smart meters and control centres, for efficient and intelligent energy management.

Global Manufacturing Hub in Renewable Energy

We will set up a Centre of Excellence for clean energy technologies and position the country as Global Manufacturing Hub for Wind, Solar and Green Hydrogen and scale up Bio-Energy Manufacturing facilities from all sorts of waste.

Our vision is to provide a world-class infrastructure in all cities and promote sustainable living.

Promoting Affordable Housing

We will strengthen the RERA act which has helped make the real estate sector in Bharat more transparent and citizen friendly than ever before. Further, we will facilitate home ownership for middle-income families through comprehensive measures including cost reduction in construction and registration, regulatory reforms like enabling automatic approvals for standard housing designs and promoting mixed-use housing.

New Satellite Townships

We will encourage the creation of new satellite townships near metro cities across India through a combination of reforms and policy initiatives. We will encourage mixed use and transit oriented development through the same.

Expanding Piped Natural Gas Connections

We have provided piped gas connections to around 1.1 crore households nationwide. We will further expand this programme to all major cities and towns.

Ensuring Ease of Mobility

We will create unified metropolitan transport systems that integrate multi-modal transport facilities and reduce commute time in cities. We will implement AI technologies for traffic management and transport efficiency.

MODI KI GUARANTEE FOR EASE OF LIVING IN CITIES

Expanding Fleet of PM-eBus

We have launched a scheme PM-eBus Seva to introduce a fleet of e-Buss across cities to provide affordable and safe transport to citizens. Now we will further extend it to other eligible cities.

Developing Water-Secure Cities

We will create water-secure cities, leveraging best practices for wastewater treatment, aquifer recharge and smart metering for bulk consumers.

Promoting Cooperative Urban Governance

We will begin long-term infrastructure projects with centre-state-city partnerships with a vision to revitalise our urban landscapes and enhance the quality of life for our citizens.

Developing Sustainable Cities

We will develop more green spaces like parks, playgrounds etc., reviving water bodies and developing natural spaces to make cities more adaptable, sustainable and people-friendly.

Open Landfill Free Cities

We will continue eliminating open landfills to manage all kinds of waste being produced in Bharat through 'Waste to Wealth Mission'.

Strengthening the Urban Land Record Systems

We will undertake the creation of the Digital Urban Land Records System.

Encouraging Modern Regulatory Framework

We will work with state governments and cities to encourage them to create a modern set of legislation, by-laws and urban planning processes using technology.

Global Conference and Exhibition Hubs

We will create big convention centres across cities and make Bharat into a global destination for conferences and exhibitions.

Urban Governance Curriculum

To ensure all round development of cities, we will create a fresh curriculum to teach urban finance, urban infrastructure, urban environmental protection, urban water management, urban transport and more.

Promoting Affordable Housing

We will strengthen the RERA act which has helped make the real estate sector in Bharat more transparent and citizen friendly than ever before. Further, we will facilitate home ownership for middle-income families through comprehensive measures including cost reduction in construction and registration, regulatory reforms like enabling automatic approvals for standard housing designs and promoting mixed-use housing.

New Satellite Townships

We will encourage the creation of new satellite townships near metro cities across India through a combination of reforms and policy initiatives. We will encourage mixed use and transit oriented development through the same.

Expanding Piped Natural Gas Connections

We have provided piped gas connections to around 1.1 crore households nationwide. We will further expand this programme to all major cities and towns.

Ensuring Ease of Mobility

We will create unified metropolitan transport systems that integrate multi-modal transport facilities and reduce commute time in cities. We will implement AI technologies for traffic management and transport efficiency.

Expanding Fleet of PM-eBus

We have launched a scheme PM-eBus Seva to introduce a fleet of e-Buss across cities to provide affordable and safe transport to citizens. Now we will further extend it to other eligible cities.

Developing Water-Secure Cities

We will create water-secure cities, leveraging best practices for wastewater treatment, aquifer recharge and smart metering for bulk consumers.

Promoting Cooperative Urban Governance

We will begin long-term infrastructure projects with centre-state-city partnerships with a vision to revitalise our urban landscapes and enhance the quality of life for our citizens.

Developing Sustainable Cities

We will develop more green spaces like parks, playgrounds etc., reviving water bodies and developing natural spaces to make cities more adaptable, sustainable and people-friendly.

Open Landfill Free Cities

We will continue eliminating open landfills to manage all kinds of waste being produced in Bharat through 'Waste to Wealth Mission'.

Strengthening the Urban Land Record Systems

We will undertake the creation of the Digital Urban Land Records System.

Encouraging Modern Regulatory Framework

We will work with state governments and cities to encourage them to create a modern set of legislation, by-laws and urban planning processes using technology.

Global Conference and Exhibition Hubs

We will create big convention centres across cities and make Bharat into a global destination for conferences and exhibitions.

Urban Governance Curriculum

To ensure all round development of cities, we will create a fresh curriculum to teach urban finance, urban infrastructure, urban environmental protection, urban water management, urban transport and more.

Expediting the establishment of यगु यगुन (Yuge Yugeen) Bharat National Museum

We will expedite the construction of the Yuge Yugeen Bharat National Museum, featuring millenia of Bharatiya history and work towards making it one of the most liked museums in the world.

Developing Legal Standards For Cultural IP Protection

We will collaborate with domestic and international organizations like WIPO & UNESCO to develop harmonised legal standards for cultural IP protection.

Translating Bharatiya Literary Works into Foreign Languages

We will support the translation and adaptation of ancient Bhartiya literary works into foreign languages.

International Conclave on Bharatiya Knowledge Traditions

We will organise a Triennial International Conclave on Bharatiya Knowledge Traditions.

Developing ASI Monuments

We will restore and preserve culturally important Archaeological Survey of India Monuments, re-igniting our rich heritage for the 21st century.

Strengthen Swadesh Darshan Programme

We have launched a Swadesh Darshan programme for comprehensive development of tourist destinations. We will work with state governments to implement and further strengthen this programme. We will include destinations and circuits covering the life and travels of important saints and philosophers.

Developing Thematic Circuits for promoting cultural experience For Border Villages to experience their lifestyle and culture Sustainable ecotourism in select under-explored regions spread across Bharat. Riverine Tourism along all major river ecosystems of Bharat. Island

tourism hubs in Lakshadweep and Andaman and Nicobar Islands. Adventure Tourism in the North East and other Hill States.

Promoting 'Wed In India'

We will promote select destinations across Bharat as preferred venues to showcase the richness of Bharatiya weddings, highlighting the vibrant traditions, and supporting cultural exchanges.

Our vision of Virasat bhi, Vikas bhi is to shape a future where our traditions inspire and unite people across the world.

Developing Our Religious and Cultural Sites

We will undertake significant new projects to develop religious and tourist sites inspired by the Kashi Vishwanath corridor model, across the length and breadth of our country.

Holistic Development of Ayodhya

As millions of devotees from around the world visit Shri Ram Lalla in Ayodhya, we are committed to the holistic development of the city.

Continue the Preservation and Study of Bharatiya Manuscripts

We will continue to digitise all Bharatiya manuscripts and epigraphs in mission mode. We will establish a dedicated scholarship programme to research ancient Bharatiya manuscripts and epigraphs.

Establishing Bharatiya Sanskriti Kosh

We will establish the Bharatiya Sanskriti Kosh to ensure the preservation and protection of ancient Bharatiya civilization, classical languages, culture, and traditions through the extensive use of technology.

MODI KI GUARANTEE FOR VIRASAT BHI, VIKAS BHI

Expediting the establishment of युगे युगीन (Yuge Yugeen) Bharat National Museum

We will expedite the construction of the Yuge Yugeen Bharat National Museum, featuring millenia of Bharatiya history and work towards making it one of the most liked museums in the world.

Developing Legal Standards For Cultural IP Protection

We will collaborate with domestic and international organizations like WIPO & UNESCO to develop harmonised legal standards for cultural IP protection.

Translating Bharatiya Literary Works into Foreign Languages

We will support the translation and adaptation of ancient Bharatiya literary works into foreign languages.

International Conclave on Bharatiya Knowledge Traditions

We will organise a Triennial International Conclave on Bharatiya Knowledge Traditions.

Developing ASI Monuments

We will restore and preserve culturally important Archaeological Survey of India Monuments, re-igniting our rich heritage for the 21st century.

Strengthen Swadesh Darshan Programme

We have launched a Swadesh Darshan programme for comprehensive development of tourist destinations. We will work with state governments to implement and further strengthen this programme. We will include destinations and circuits covering the life and travels of important saints and philosophers.

Developing Our Religious and Cultural Sites

We will undertake significant new projects to develop religious and tourist sites inspired by the Kashi Vishwanath corridor model, across the length and breadth of our country.

Holistic Development of Ayodhya

As millions of devotees from around the world visit Shri Ram Lalla in Ayodhya, we are committed to the holistic development of the city.

Continue the Preservation and Study of Bharatiya Manuscripts

We will continue to digitise all Bharatiya manuscripts and epigraphs in mission mode. We will establish a dedicated scholarship programme to research ancient Bharatiya manuscripts and epigraphs.

Establishing Bharatiya Sanskriti Kosh

We will establish the Bharatiya Sanskriti Kosh to ensure the preservation and protection of ancient Bharatiya civilization, classical languages, culture, and traditions through the extensive use of technology.

'Reform, Perform, Transform' is our mantra for Good Governance. We have used a mix of policies, technology, and simpler processes to ensure good governance in the last ten years. These initiatives have made the governance more efficient and have reduced corruption at all levels of governance from the top to everyday transactions carried out by citizens. Our Vision for good governance is to further simplify the processes, procedures, rules and regulations in such a way that we are able to take the government out of the everyday lives of normal citizens. We will undertake more institutional reforms and simplify processes using technology to ensure that citizen-government interaction is significantly improved.

Combating Corruption

In contrast with the previous government, we have given transparent and accountable governance to our citizens. We will continue our fight against corruption through strict implementation of laws and use of technology.

Bringing Uniform Civil Code

Article 44 of the Constitution lists Uniform Civil Code as one of the Directive Principles of State Policy. BJP believes that there cannot be gender equality till such time Bharat adopts a Uniform Civil Code, which protects the rights of all women, and the BJP reiterates its stand to draw a Uniform Civil Code, drawing upon the best traditions and harmonising them with the modern times.

MODI KI GUARANTEE FOR GOOD GOVERNANCE

Accelerating e-Courts on Mission Mode

We will accelerate the e-Courts Mission Mode Project to complete the digitisation of entire court records and for easy access to court proceedings online.

Expedite the Resolution of Old Cases

We will establish fast track courts for quick disposal of pendency in identified areas.

Creation of Ecosystem for Alternate Dispute Resolution

We will work towards further improving the legal framework to promote arbitration and mediation ecosystem.

Institutional Reforms

Fiscal Autonomy of Panchayati Raj Institutions

We will take further steps to facilitate fiscal autonomy and sustainability of Panchayati Raj Institutions.

Formulating a National Litigation Policy

We will formulate a National Litigation Policy to expedite the resolution of all matters in courts, lower the cost of contested court proceedings, and decrease the number of cases in which the government is a party and the consequent load on the courts.

Initiating Reforms in the Civil Procedures

We will completely overhaul the commercial and civil justice systems, on the lines of criminal justice reforms. This revamp will aim to streamline procedures, enhance the efficiency of legal processes and ensure timely justice, fostering a more business-friendly and citizen-centric legal environment.

Improving Delivery of Public Services

We will improve public services delivery through CSCs and Post Offices using technology. We will use Bhashini to provide services in multiple Indian languages. We will increase participation of citizens in policy making through platforms like MyGov.

Strengthen Statistical Institutions

We will further strengthen the capacity of statistical institutions to give an impetus to data driven policy making.

Making One Nation, One Election a Reality

We have set up a High Powered Committee to examine the issues of conducting simultaneous elections and will work towards the implementation of the recommendations of the Committee.

Introducing Common Electoral Roll

We will make provisions for a common Electoral Roll for all levels of elections.

Capacity Building for All Central Government Employees

We will expand the Karmyogi Scheme to cover all Central Government employees, promoting a responsive, highly competent and tech-savvy workforce for efficient and inclusive governance.

Modernising Police Forces

We will assist states in transforming the police into a tech-savvy, tech-trained and tech-equipped force through the Police Modernization Scheme.

Combating Corruption

In contrast with the previous government, we have given transparent and accountable governance to our citizens. We will continue our fight against corruption through strict implementation of laws and use of technology.

We will assist states in transforming the police into a tech-savvy, tech-trained and tech-equipped force through the Police Modernization Scheme.

We have taken many successful steps in the last ten years to expand and improve health services. We have focused on yoga, fitness, clean air, pure water and nutritious food for the overall well being of our citizens. We developed vaccines to fight the pandemic. The Ministry of AYUSH was created to promote traditional medicine. Opened new medical colleges to increase the number of doctors. Medical care was provided to every person

through AIIMS and Ayushman Arogya Mandir. Free medical treatment up to Rs 5 lakh provided by Ayushman Bharat. And used technology extensively in every field. Modi's guarantee is to further increase these efforts for a healthy India.

Strengthening AIIMS

We have established 15 AIIMS in the past decade to provide affordable and quality healthcare for all. We will strengthen our network of AIIMS to provide quality healthcare across the country.

Increasing Seats In Medical Education

Through the increased number of AIIMS and various medical colleges, we will increase the number of UG and PG seats in medical education.

Strengthening PM ABHIM

We are already upgrading secondary and primary health care under PM-ABHIM (PM-Ayushman Bharat Health Infrastructure Mission). We will further expand PM-ABHIM for robust health care.

MODI KI GUARANTEE FOR SWASTHA BHARAT

Strengthening Ayushman Arogya Mandirs

We will further strengthen the Ayushman Arogya Mandirs and upgrade district hospitals and other secondary healthcare centres by expanding the full functionality of all packages for comprehensive healthcare.

Expanding Jan Aushadhi Kendras For Affordable Medicines

We will expand the Jan Aushadhi Kendra network to provide high-quality low-cost medicines to citizens across the country.

Launching an Emergency And Trauma Care Mission

We will launch an Emergency And Trauma Care Mission to provide immediate and effective care to trauma patients.

Strengthening The Ongoing Programmes For Disease Eradication

We will intensify existing efforts to ensure elimination of TB, Leprosy, Lymphatic Filariasis, Measles and Rubella, Trachoma, and Kala Azar by facilitating timely testing and access to medicines.

Accelerating Vaccine Production and Distribution

We will encourage and extend support to Bharatiya vaccine manufacturers and biopharma companies in various capacities to boost production and distribution and aim to reduce our timeline for vaccine manufacturing.

Augmenting the Health Human Resources

We will strengthen the efforts being made to increase the training capacity for paramedics, technicians, pharmacists and nurses.

Improving Mental Healthcare Services

In our increasingly complex society, mental well-being has emerged as a top priority. We will strengthen our traditional means including Yoga and Meditation, and also enhance the scope and coverage of mental health initiatives like Manas and Manodarpan.

Combating Corruption

In contrast with the previous government, we have given transparent and accountable governance to our citizens. We will continue our fight against corruption through strict implementation of laws and use of technology.

Our vision is to redefine the education ecosystem by envisioning modern, universalised, quality education propelled by the momentum of NEP 2020. We will prepare our students to be future ready through a dynamic curriculum process. We will encourage teaching and learning in mother tongue. We will focus on all dimensions of quality education including teachers training, infrastructure, use of technology, internships, and time-to-time upgradation of knowledge and skills.

Ensuring Quality School Education

We will ensure that every student gets the opportunity for high-quality school education. For this, we will strengthen the network of PM SHRI Schools, Ekalavya Schools and other such schools as per NEP to make them world-class. We will work towards a 100% Gross Enrollment Ratio from pre-school to secondary level.

Ensuring Future-Ready Youth

We will make our youth future ready by adopting a dynamic learning curriculum at school level as mandated by NEP and by incorporating industry-aligned curriculum and skill development in emerging technologies in higher education.

Implementing One Nation, One Student ID

We will achieve 100% implementation of 'One Nation, One Student ID' through the Automated Permanent Academic Account Registry (APAAR) to store academic qualifications, credit scores and certificates, among others for students from pre-primary to higher education.

Expanding Skills Training for Youth

In the last ten years, we have developed a robust skill development ecosystem. In line with the objectives of NEP, we will further enhance it and integrate it with our education system. We will continue to work with industry to expand skilling opportunities that lead to employment and self-employment.

Establishing New Institutions of Higher Learning

7 IITs, 16 IIITs, 7 IIMs, 15 AIIMS, 315 Medical Colleges and 390 universities have been set-up in the past decade. We are committed to strengthening these institutes and further increasing the number of institutions of higher learning. We will continue to upgrade the existing institutions through focused funding, capacity building, infrastructure upgradation and dedicated research grants.

Using Technology for Access to Quality Education

We will promote the usage of education stack for personalised and flexible learning management systems through initiatives under PM e-Vidya such as SWAYAM, SWAYAM PRABHA, etc.

Building on the success of the above digital learning initiatives, we will operationalize a digital university for industry-focused free courses to provide upskilling opportunities for low-income families.

MODI KI GUARANTEE FOR QUALITY EDUCATION

Our vision is to strengthen the sports ecosystem for Bharat to be a world leader in Sports.

Including More Traditional Sports Under Khelo India

We will include more traditional sports under the Khelo India Scheme.

Incentivising Sports Goods Manufacturing

We will incentivize sports goods manufacturing in partnership with the sports ecosystem in Bharat to take forward the vision of Aatmanirbhar Bharat.

Universal Access to Sports Infrastructure

We will continue to expand the Khelo India network and other initiatives to nurture future athletes who can represent our nation with pride.

Promote Sports Startups

We will promote startups in sports and help create a technology ecosystem in sports.

Facilitating Hosting Olympics

We will facilitate IOA to bid for hosting the Olympic Games in 2036, and develop sports infrastructure like stadiums and state-of-the-art training centres to host major international sporting events.

Providing Comprehensive Plan for Retired Sportspersons

We will launch a new programme for sportspersons, providing them with benefits like educational opportunities, employment opportunities and promotion opportunities.

MODI KI GUARANTEE FOR SPORTS

DEVELOPMENT

Including More Traditional Sports Under Khelo India

We will include more traditional sports under the Khelo India Scheme.

Incentivising Sports Goods Manufacturing

Providing Comprehensive Plan for Retired Sportspersons

We will launch a new programme for sportspersons, providing them with benefits like educational opportunities, employment opportunities and promotion opportunities.

Holistic Development of Islands

We will transform our islands into premier global tourism destinations by developing world-class beach resorts, marine adventure activities, and robust coastal infrastructure. Our focus will be on attracting tourists from Bharat and around the world while preserving the local ecosystems and promoting sustainable tourism practices.

Sustainable Development of Hill States

We will continue to protect and preserve the unique ecological balance of Bharat's hill states through sustainable development initiatives. We will work with state governments and local

bodies to prepare a special master plan to maintain their pristine beauty and biodiversity, taking into account the local geography, culture and traditional practices, for the balanced development of hilly areas.

Resilient Infrastructure For Bharat's Coast

We will continue to strengthen Bharat's coastline by developing a resilient infrastructure. We will work with the state governments and local communities to prepare a master plan, keeping in mind the special needs of coastal areas and ensuring all facilities.

Combating Himalayan River Floods

We will partner with neighbouring countries to strategically manage the Himalayan rivers. Our focus will be on holistic measures to mitigate the devastating effects of floods and harnessing hydroelectric power to generate affordable electricity.

Maintaining Peace in Northeast

We will continue our efforts to address the issues in the disturbed areas and remove AFSPA in a phased manner. We will further work towards resolution of inter-state border disputes amongst Northeastern states through sustained efforts.

Leveraging Northeast as a Strategic Gateway for the Act East Policy

We will work to leverage the Northeast as a strategic gateway for Bharat's Act East Policy ensuring connectivity, education, health, economic development and security.

Building Sarovars to Manage Floods in North East

We will ensure flood management in the Northeast by conducting advanced satellite imagery to identify places where big reservoirs can be constructed to store excess waters according to topography, which will be used for irrigation, organising water sports among others.

Formulating Master Plan For Purvodaya

We will formulate a dedicated Purvodaya Master Plan for targeted and integrated infrastructure development of eastern India.

MODI KI GUARANTEE FOR

BALANCED REGIONAL DEVELOPMENT

Our vision for regional development is to ensure every part of India progresses equally, fostering growth and innovation.

Holistic Development of Islands

We will transform our islands into premier global tourism destinations by developing world-class beach resorts, marine adventure activities, and robust coastal infrastructure. Our focus will be on attracting tourists from Bharat and around the world while preserving the local ecosystems and promoting sustainable tourism practices.

Formulating Master Plan For Purvodaya

We will formulate a dedicated Purvodaya Master Plan for targeted and integrated infrastructure development of eastern India.

Our vision is for Bharat to be a champion in technological innovations by becoming the centre of cutting-edge research.

Scientific Research Fund

We will set up an Anusandhan Fund with an investment of ₹1 lakh crore to provide loans to promote scientific research.

Catalysing AI Innovation for Global Leadership

We will develop a comprehensive ecosystem under the IndiaAI mission, driving AI innovation through collaborative strategic programs and partnerships to position Bharat as a global leader in AI innovation and build domestic capacities to ensure tech sovereignty.

Graphene Mission

We will strengthen the Graphene-based technology programmes to develop more use cases and applications.

Quantum Tech Frontier

We will operationalise the National Quantum Mission to position Bharat as a global leader in quantum technology, harnessing its potential to revolutionise various sectors and spearhead technological innovation.

Achieving Geospatial Data Excellence

We will create a national geospatial data registry and geospatial data exchange that will enable industries and startups for innovative products and services.

Establishing Science Parks

We will establish science parks in various cities, to ensure that the spirit of scientific inquiry is within reach of Bharat's youth.

Launching National Atmospheric Mission

We will launch a National Atmospheric Mission to be called Mausam to make Bharat "weather ready" and "climate smart".

Positioning Bharat as Leading Space Power

We will launch Gaganyaan, Bharat's first human spaceflight mission, and land an astronaut on the Moon, a sign of Bharat's progress and prosperity in Amrit Kaal.

We will establish Bharatiya Antariksha Station (BAS) and we will also operationalise a second launch complex for the country.

We aim to significantly increase the value of the Space Economy, positioning Bharat as a leading space power and extending support to Global South countries in utilising space and space technology services.

We will set up a Global Space Academy under the aegis of ISRO and IIST with fellowship programmes for both national and international students. We will also establish a spaceforum that positions Bharat as a leading space power and assist Global South countries in using space and space-tech services.

Operationalising Anusandhan National Research Foundation

We will operationalise the Anusandhan National Research Foundation to build robust Research and Development infrastructure across the country.

MODI KI GUARANTEE FOR

TECHNOLOGY AND INNOVATIONS

Scientific Research Fund

We will set up an Anusandhan Fund with an investment of ₹1 lakh crore to provide loans to promote scientific research.

Operationalising Anusandhan National Research Foundation

We will operationalise the Anusandhan National Research Foundation to build robust Research and Development infrastructure across the country.

World has noticed the concept of LIFE, Lifestyle for Environment, given by Prime Minister Shri Narendra Modi. This vision is complemented by focussed execution of all dimensions of environment management. We stand committed to lead the world in sustainable living. We will use both traditional wisdom as well as modern practices to contribute to a healthier planet.

Increasing non-fossil fuel capacity

Due to our focus on the environment, we have reached 44% of our electricity generation capacity from non-fossil fuel sources. We will continue on this path and increase the share of non-fossil fuel sources in line with Panchamrit. We will work towards achieving net zero emissions by 2070.

Revitalising Bharat's Rivers

Building on the experience of Namami Gange, we will undertake phase wise improvement of health and cleanliness of all major rivers.

By leveraging traditional knowledge alongside modern techniques, we will integrate check dam construction, Amrit Sarovar construction, and basin management into the National River Conservation Plan. Through this, the conservation and regeneration of basins of all major rivers will be accelerated.

We will support state governments in developing systems to treat water contaminated with arsenic, mercury, industrial pollutants, or other naturally occurring issues, ensuring comprehensive water quality management.

MODI KI GUARANTEE FOR SUSTAINABLE BHARAT

Scientific Research Fund

We will set up an Anusandhan Fund with an investment of ₹1 lakh crore to provide loans to promote scientific research.

We will launch Gaganyaan, Bharat's first human spaceflight mission, and land an astronaut on the Moon, a sign of Bharat's progress and prosperity in Amrit Kaal.

We will establish Bharatiya Antariksha Station (BAS) and we will also operationalise a second launch complex for the country.

We aim to significantly increase the value of the Space Economy, positioning Bharat as a leading space power and extending support to Global South countries in utilising space and space technology services.

We will set up a Global Space Academy under the aegis of ISRO and IIST with fellowship programmes for both national and international students. We will also establish a spaceforum that positions Bharat as a leading space power and assist Global South countries in using space and space-tech services.

Operationalising Anusandhan National Research Foundation

We will operationalise the Anusandhan National Research Foundation to build robust Research and Development infrastructure across the country.

Improving Air Quality

We have initiated the National Clean Air Program framework, aimed at reducing air pollution across 131 cities. Further, we will ensure that the NCAP effectively achieves and maintains the designated annual average ambient air quality standards in all regions of the nation, especially achieving National Air Quality Standards in 60 Cities by 2029.

Promoting Afforestation and Agroforestry

We are committed to achieving the target of a carbon sink by enhancing the tree cover.

We will launch the Green Aravalli Project, a green corridor to protect and preserve biodiversity in the region and combat desertification.

Protecting Himalayan Ecology

Considering the fragile nature of the Himalayan ecology and the increase in the frequency and intensity of natural disasters in the region, we will undertake a holistic approach towards disaster mitigation and strengthening of disaster resilience in the Himalayan States.

Developing Coastal Climate Resilience

We will safeguard our coastal communities and ecosystems by building resilience against climate change and its threats.

Expanding Green Credit Programme

We will continue our lead in the Green Credit Programme by expanding the scope of activities to fulfil the decarbonization requirements.

Achieving Disaster-Resilient Bharat

We will strive to achieve a disaster-resilient Bharat with minimum casualties and losses due to natural disasters by evolving appropriate technical and policy initiatives.

Managing Human-Animal Conflict

We will work with state governments and all stakeholders to sensitively manage human-animal conflict in areas close to forests.

Initiating National E-Waste Management Programme

We will launch a series of programmes to address the growing concern over safe disposal of e-waste.

Promoting Sustainable Living

We will strengthen Mission LIFE, establishing a comprehensive repository encompassing both traditional and contemporary best practices, and fostering the global adoption of environmentally friendly lifestyles to promote sustainable living across the globe.

Promoting Recycling

We will promote recycling programmes across the country. We will institutionalise recycling mandates across sectors to maximise mineral recovery from used products.

Protect the Environment through Various Schemes

We have started multiple programmes to protect the environment like PM Surya Ghar Yojana, Railway Electrification, PM e-Bus, promotion of EVs, Ethanol and Bio-fuel promotion among others. Through these programmes, our citizens will benefit from the opportunity to live in a clean environment.
